EXECUTE 32

Ninety years of excellence packed into one legendary bow. Introducing the 2023 Bear Archery Execute 32. The Execute 32 encompasses everything the industry has come to expect in a flagship hunting bow. The compact 32" ATA and 6.5" brace height make this bow maneuverable, comfortable and most importantly - lethal in the field. The Execute offers speeds up to 340 FPS with our most capable and highly adjustable EKO cam system. To enhance the performance of the Execute even more, every Execute ships with a limb stop for a rock solid back wall. The bow fits draw lengths from 26.5-30.5" and features a new parallel limb design with wider and more stable limbs and more efficient machined limb pockets. The Execute 32's revolutionary riser design features a new swing arm cable guard and Shock Management System (SMS) resulting in the most dead-in-hand and quiet shot experience on the market. In addition to the new SMS, the Execute comes with two grips; the popular slim grip so many know and have come to love and an all-new soft touch Grizgrip with a thicker palm-swell for added comfort.

WHITETAIL LEGEND PRO

Back by popular demand, the Whitetail Legend Pro is arguably the best value bow with its impressive specs, EKO cam system, and unbeatable price. This bow was designed and engineered for ultimate performance in bowhunting spaces. Never worry about your bow getting in the way of a perfect shot again. This compact 30" axle-to-axle bow sports patented EKO Cam technology with an unprecedented four let off settings that allow you to hold at full draw for as long as it takes for that bruiser to come in view. The KillerWave limb dampeners reduce vibration and increase accuracy with every shot. The Whitetail Legend Pro features Bear Archery Contraband string and cables ensuring legendary performance for seasons to come.

LEGEND XR

Meet the latest addition to the LEGEND line - the Legend XR. With a longer 32" axle-to-axle, this smooth drawing hybrid-cam delivers the ultimate shooting experience. The 85% let off from the new DHC-XR cam and 6 1/4" brace height make the Legend XR incredibly forgiving and comfortable regardless of whether you're at the range or in the backcountry. The XR can accommodate draw weights from 14 lbs to 70 lbs and stretches from 18" to 31" in draw length - more adjustability than any previous Legend model. The new Legend XR offers shooters immense value with its offset string suppressor and KILLERwave in-limb dampeners to help reduce vibration and noise in every shot.

ALASKAN

In the 1950's and 60's, Bear Archery produced the ALASKAN - a bow with performance the industry had never seen at an unbeatable value. The ALASKAN returns with a spin. This technology and performance packed 32" axle-to-axle bow comes equipped with the smoothed and performance packed DHC hybrid cam. The DHC hybrid cam system features a relaxed 80% let off without sacrificing Bear's signature draw cycle smoothness. The new KillerWave in-limb dampeners assist in eliminating vibration and improving accuracy in each shot. The ALASKAN offers respectable arrow speeds up to 335 FPS and an incredible amount of adjustability in draw length from 25.5"-31".

The Legit's broad adjustability and incredible value has made it one of the most sought after bows on the market today. For 2023 Bear Archery is bringing back the "Throwback" Legit as an exclusive model available only at Bear Authorized Dealers. The nostalgic throwback finish features Fred Bear Camo limbs with either an olive green or shadow black riser. The bow offers the same remarkable adjustability from a 14" to 30" draw length and from 10 to 70 lbs. draw weight. All adjustments can be made without the need for a bow press. The bow comes ready to hunt equipped with Trophy Ridge accessories – a 4-pin sight, 5-Spot quiver, V-Biscuit, No-tie peep sight & D loop. The Legit weighs an incredible 3.8 lbs. and blasts arrows down range at 315 feet per second. The Legit's dual cam system provides a class leading smooth draw cycle.

TROPHY RIDGE

LITE 1 PRO

The goal was to create a lighter, more accessible, and more compact quiver. The Lite-1 Pro has all the features that make a premium quiver a fast and deadly partner on the hunt - all at less weight. It's the lightest, most versatile quiver yet, and possibly the most capable quiver ever built.

FEATURES:

BALLISTIX
COPOLYMER
SYSTEM

- Ballistix CoPolymer® construction
- Braided hanging rope for bow or detached quiver
- Customizable mounting bracket fits the quiver higher or lower on the bow
- Dual arrow grippers for fixed or mechanical broadheads

1 bright green LED light inside the hood

3 bright green LED lights on top of the hood

TROPHY RIDGE

REACT[®] RETALIATE

The Retaliate horizontal 5-pin sight features our exclusive React[®] Technology and an aluminum mounting bracket for extreme durability. No other sight gives you the speed and precision of the React[®] sights. Faster to sight in and impossible to be inaccurate, React Technology sights will make you a better shooter!

FEATURES:

- Five .019" horizontal-pin sight featuring innovative React[®] Technology

**BALLISTIX
COPOLYMER[®]**
SYSTEM

- Reduces vibration while maintaining light-weight strength with Ballistix CoPolymer[®] System
- Make easy corrections with advanced tool-less micro windage and elevation adjustments
- Strengthen accuracy over longer distances with 2nd axis adjustment

TROPHY RIDGE

TRILOGY

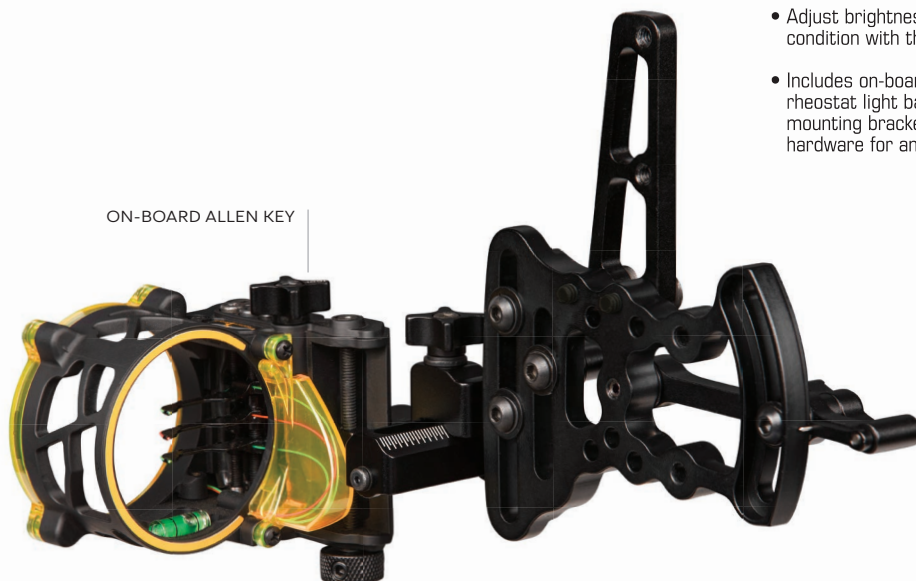

Take precision to the next level with the Trophy Ridge Trilogy sight. Each pin is micro-adjustable to consistently provide unparalleled accuracy at all ranges. Yardage adjustments are made with the extended slider which maximizes your shooting range starting at 20 yards. The Delrin bushing eliminates metal-to-metal contact resulting in a smooth, quiet movement. The Trilogy perfectly balances precision with superior durability and strength utilizing an aluminum mounting bracket.

FEATURES:

- Dependable precision with micro-adjustable pins
- Ultimate visibility with ultra-bright .019 horizontal fiber optic pins
- Adjust brightness to suit any shooting condition with the rheostat light
- Includes on-board adjustment tool, rheostat light battery, aluminum mounting bracket and quiver mounting hardware for an easier quiver set up

FASTER. QUIETER. DEADLIER THAN EVER.

For 90 years, Bear Archery has worked to design, engineer, and craft bows that give archers everywhere the best shooting experience. It was Fred Bear's sole mission to bring the industry equipment that not only presented remarkable innovation and performance, but remained affordable and accessible. We are honored to introduce this year's lineup of bows that continue to offer unbeatable adjustability and value added features at an industry leading price point, just as Fred Bear would have done..

ESCALATE

This technology packed 31" axle-to-axle bow offers insane performance at an unbeatable price. The Escalate features Bear's patented EKO cam technology and accuracy enhancing Vibration Reduction System. The Escalate receives Bear's KillerWave™ limb dampeners and a vibration eliminating string stop to further cut down on post shot hand shock. The Escalate offers astonishing speeds up to 339 FPS and accommodates shooters with draw lengths from 26" to 30". The bow's GRIZgrip offers shooters a comfortable and relaxed hold on the performance engineered riser. The 4.1 lbs mass weight along with the 6.5" brace height make the Escalate nimble and manageable in both spot and stalk or tree stand scenarios. Take your bowhunting to a new level this year and experience the Bear Archery Escalate.

RESURGENCE

The Resurgence RTH is a performance bargain with Bear's DHC 80% hybrid cam system. The DHC hybrid cam system offers Bear's signature smooth draw cycle with unbelievable performance and an effective while relaxed 80% let off. This lightweight 32" axle-to-axle bow offers class leading stability with a 6 1/4" brace height. The new KillerWave™ limb dampeners help eliminate vibration and improve accuracy in every shot. The Bear Archery Resurgence RTH offers blistering arrow speeds up to 335 feet per second; perfect for 3D archery and bowhunting. The Resurgence RTH offers an incredible level of adjustability and accommodates draw lengths from 25 1/2" to 31". This bow is available as either a 45 lbs. – 60lbs. or 55lbs. – 70lbs. bow and comes ready-to-hunt with Trophy Ridge accessories. The Resurgence RTH comes equipped with a Trophy Ridge 4-pin sight, 5-spot quiver, stabilizer, Whisker Biscuit V, peep sight, and D loop. Experience the value packed and highly-adjustable Resurgence RTH from Bear Archery.

Meet the ADAPT. This single cam, 32" axle-to-axle, 6.5" brace height bow was a joint venture between Bear Archery and the The Hunting Public. The ADAPT features an accommodating 80% let off and fits bowhunters with draw lengths from 24"-31". This bow features a new Bear Paw insulated grip - Bear's most comfortable and ergonomic bow grip to date. With speeds up to 320 FPS, a rock solid back wall from the limb stop, and the smoothest draw cycle on the market, the ADAPT is perfect for chasing any size game. Aaron, Greg, Zack, Jake, Hayden, and Ted built their dream bow and included several features from some of their favorite Bear bows of the past.

Bear
ARCHERY

BEAR PAW GRIP

The Bear Paw Grip is over molded and features a soft coat finish that will ensure comfort contact with the bow. The Bear Paw Grip is designed to give you a more relaxed and natural grip. The New Bear Paw Grip is easily installed to many of our current model compound bow.

Versatile Fit

Fits any Bear ALASKAN, Resurgence, Resurgence LD, Legit, Legend XR, Whitetail Legend Pro, Species EV, and ADAPT models.

**SPECIES EV**

Back by popular demand Bear Archery Species EV is Derived from the fan-favorite Species, The Species EV is an EVOLUTION to the popular single cam bow with an impressive 80% let off. Tipping the scale at only 3.8lbs with its 30" axle-to-axle and 6 3/4" brace height, the Species EV is a compact, smooth, and lethal option for the hardcore bowhunter. The Species EV offers more adjustability with a 23.5"-30.5" draw length and either 45-60lb or 55-70lb limbs. The Species EV comes as a Ready-to-Hunt (RTH) bundle which includes a Trophy Ridge sight, Whisker Biscuit V, stabilizer and wrist sling, lightweight 5-Spot quiver, D-loop, and peep sight. This single cam bow offers arrow speeds up to 320 FPS and features Bear's KillerWave limb vibration dampeners to increase accuracy in every shot.

LEGIT

Meet the industry's favorite bow, the Bear Archery Legit. This compound bow is made to legitimately fit all ages and skill levels. We've engineered this bow to be adjustable from a 14" to 30" draw length range and from 10 to 70 lbs. peak draw weight. All adjustments can be made using an Allen wrench and there is no need for a bow press. The bow comes ready to hunt equipped with Trophy Ridge accessories – a Joker 4-pin sight, 5-Spot quiver, Whisker Biscuit, peep sight & D loop. The Legit weighs only 3.8 lbs. and fires arrows at 315 feet per second. The new and improved dual cam system provides a smooth draw cycle. This bow is legit.

CRUZER G3

From the original Cruzer and Cruzer Lite to the first-choice Cruzer G2, the Cruzer name plate has always carried immense respect across the industry. For 2023 the legacy continues with the latest generation of the Cruzer line - the 2023 Bear Archery Cruzer G3. The G3 brings more performance, adjustability, and practicality than any previous model. The newly improved dual cam system brings arrow speeds up to 315 FPS and can accommodate draw lengths from 14" to 30". Archers of any size and stature will find the Cruzer G3's 75% let off remarkably comfortable with an adjustable draw weight anywhere between 5lbs and 70lbs. The new G3 comes equipped as a Ready to Hunt setup with a Trophy Ridge sight, quiver, Whisker Biscuit, peep, and D-loop installed from the factory. If you're looking for a solid performing bow for under \$500 that will last for years to come, look no further than the new Cruzer G3.

THE GOLD STANDARD FOR 90 YEARS

This year marks the 90th anniversary from when Fred Bear set out on a mission to make quality archery equipment at prices everyone could afford. For 2023 the traditional lineup of Take Downs, recurves, and longbows bring the same iconic quality and performance notorious with the Bear name with modern materials and first-class looks. We are proud to continue Fred's legacy and bring the industry the best traditional archery equipment for another consecutive year.

Fred Bear Take Down

First introduced by Fred Bear more than 50 years ago, the Bear Take Down was a modern and innovative design that revolutionized the archery industry. The 2023 Take Down is available in two timeless wood finishes: Black Maple with a phenolic black stripe or Bubinga and phenolic with an inlaid phenolic black stripe.

Limb cores made with maple laminate and overlaid with high-strength black fiberglass

Crowned, cut-on center arrow shelf with leather side plate and bear hair arrow rest

Dynaflight 97 Flemish Twist string

NEW

Fred Eichler Signature Series Riser

For 2023, we are proud to partner with world-famous traditional bowhunter, Fred Eichler on an all-new, first of its kind aluminum Take Down riser. The Fred Eichler Signature Take Down features a 17" machined riser with Bear's patented Fred Bear latch system. The 2023 Eichler Signature riser can be paired with Bear's 1, 2, and 3 limbs to create a Take Down with a 58", 60", or 62" AMO. The durable and ergonomic design of the bow is the result of immense testing and input from Fred Eichler himself. As the first individual ever to complete the Super Slam (all 29 of North America's big game animals) with a traditional bow, Fred Eichler's knowledge and first hand experience in the field with a recurve is second to none. The low wrist, slim grip design, adjustable strike plate and customizable shelf radius are critical components that give bowhunters the flexibility to tailor the riser to their wants and needs.

Features

- 17" Riser Length
- Eichler Riser #1 Limbs = 58" AMO
- Eichler Riser #2 Limbs = 60" AMO

Mag Riser

The always popular Mag Riser returns for 2023. We've paired the all-new Mag Riser with the classic Fred Bear Take Down design for easy transportation. The new Mag Riser features an aluminum A or B length riser for extreme durability and accuracy.

Aluminum riser for extreme accuracy with every shot

Utilizes the famous Take Down system for easy transportation

Adjustable center shot side plate allows for perfect arrow tunings

Includes bushings for stabilizer and quiver accessories

Features

- A-Riser with #1 Limbs = 56" AMO
- A-Riser with #2 Limbs = 58" AMO
- A-Riser with #3 Limbs = 60" AMO
- B-Riser with #1 Limbs = 60" AMO
- B-Riser with #2 Limbs = 62" AMO
- B-Riser with #3 Limbs = 64" AMO
- Satin Finish
- Fred Bear Camo and Moss Green

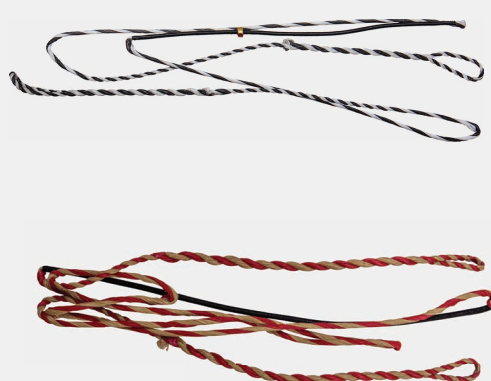

Take Down Limbs

Years ahead of their time, Fred Bear's Take Down Limbs brought the industry a new technology and superior performance. Today, these Take Down Limbs are constructed of layered hard rock maple and black fiberglass, and handcrafted tips that are reinforced with black and white fiberglass to accommodate modern strings. For 2023, Take Down Limbs are available in three lengths: #1, #2, and #3 limbs. The #1 limbs will make a 56" bow on an A-Riser and a 60" bow with a B-Riser. The #2 limbs will make a 58" bow on an A-Riser and a 62" bow with a B-Riser. And the #3 limbs will make a 60" bow on an A-Riser and a 64" bow with a B-Riser.

Kodiak

Ask around about Bear bows, and you'll hear tales of the legendary 59 Kodiak. Throughout the years, Bear has been asked to "bring it back." Out of respect, we were convinced the 59 Kodiak could never be duplicated. But, like Mr. Bear, we believe in giving people what they want. The timeless design and craftsmanship will forever make the Kodiak one of the most desirable recurves in the industry.

Limb cores crafted with maple core laminate and overlaid with high-strength green fiberglass

Crowned, cut on center arrow shelf with leather side plate and signature feather arrow rest

Cheyenne

The Cheyenne was a collaboration between father and son – Grant Neil Byce II, Mr. Bear’s retired master bowyer, and Grant Neil Byce III, Bear Archery’s director of operations. The bow’s length handles the swept-back style limbs of the Take-Down, while the grip is designed to feel full in hand while incorporating the half-moon styling reminiscent of Fred’s favorite bows of the early 60s.

Montana

First introduced in the late 1990's, the Bear Montana has quickly become one of the best selling and most sought after longbows in the industry. The Montana is unique in the sense it features a slight reflexed design with tapered limb laminations and slim tips. The construction and craftsmanship of the Montana bring immense performance at an unbeatable price. For 2023, the Montana features a Black Maple riser with iconic Arctic Grey glass limbs. The new model will be offered in addition to the returning Black Maple and Black glass variant that the industry has come to know and love since its introduction.

Traditional Broadheads

In 1956, Fred Bear introduced the Razorhead to the bowhunting community. It quickly became one of the most respected and widely used broadheads among bowhunters. Introduced in late 2023, Bear Archery has brought back the iconic Razorhead broadhead with a twist of modern technology. The all-new Razorhead VWS (Variable Weight System) features an innovative insert system that is designed to allow bowhunters the ability to customize the weight of their broadhead from 150gr, 175gr, 200gr, and 250gr. The Razorhead VWS Single Bevel is constructed from high-grade stainless steel, engineered to provide optimum penetration through impact, leading to a bone splitting effect and enhanced tissue damage throughout the animal. The broadheads by themselves weigh 150gr and can be used as a glue on point for wooden or swedged arrow shafts. In addition, the Razorhead will come with three different sets of inserts, along with three field points that match the weight of the broadhead. In conjunction with the 150gr heads or field points, you can add one of the three included inserts: magnesium insert will make a 175gr head, aluminum insert will make a 200gr head, and a stainless-steel insert will make a 250gr head. All inserts are designed to fit both

Traditional Bow Quivers

NEW

Kodiak Quick-Disconnect Quiver

Meet the all-new Kodiak Quick Disconnect Quiver by Bear Archery. The innovative two-piece limb mount quiver is designed to fit all recurve and long bows due to its extreme adjustability and mounting system. The quick disconnect design features a snap-bracket that can be easily adjusted to fit any width traditional bow limb. The quiver features a durable glass-filled nylon hood designed to accommodate up to five arrows with the largest of broadheads. The unique design allows hunters to easily take the Kodiak Quick Disconnect Quiver off for travel or storage.

INSPIRING THE BOWHUNTERS OF TOMORROW

Bear Archery is proud to be the industry leader in youth and recreational archery equipment. Our lineup of bows and accessories are strategically designed to fit the needs of young archers everywhere. The 2023 youth and recreational line offers more adjustability and value that promotes and inspires bowhunters of tomorrow. It's never too early to share the passion of shooting a Bear with the next generation of archers.

BRAVE

The Brave® is the perfect introductory bow for young children following the example of Mom and Dad. With a 26" axle-to-axle and 15 to 25 lb. peak draw weight, the Brave is suggested for ages eight and older. The Brave has a draw length range of 13.5 to 19.5 inches and a brace height of 5.5". The let off is 65%. The Brave Youth Bow Set comes ready to shoot with two Safetyglass™ arrows, Whisker Biscuit arrow rest - the safest rest in the archery industry and a \$40 value, a 1-pin sight, arrow quiver, and armguard. The Brave is intended for right-handed use only. Choose from five different color options.

GETTING REACT® SIGHTED IN

React® sights separate into two main categories – single pin sights with yardage indicators and multi-pin sights. Regardless of what type of sight you choose, sighting it in is easy. Follow the steps below.

REACT® SINGLE PIN

3 EASY STEPS

1. Sight in your 20-yard pin using the advanced tool-less micro-click windage and elevation knobs.
2. Next, step back to 30 or 40 yards and zero your next mark using the elevation drive knob.
3. Turn the master adjustment knob until the pointer on the sight lines up with the corresponding yardage indicator. Once you have 2 yardage marks accurately sighted in, all of your indicators are set.

DIGITAL REACT® ONE™

REACT® ALPHA™

REACT® ONE PRO™
(dovetail option shown)

REACT® TRIO

4 EASY STEPS

1. Ensure that the sight is in the upmost position with the arrow pointing at the first indicator. Sight in the bottom vertical pin at 40 yards using the tool-less micro windage and elevation adjustments.
2. Next, step back to 50 or 60 yards and zero your bottom vertical pin using the elevation drive knob.
3. Turn the master adjustment knob until the pointer on the sight lines up with the corresponding yardage indicator. Once you have 2 yardage marks accurately sighted in, all of your indicators out to 100 yards are set.
4. Return the sight to the upmost position before sighting in the 20 and 30 yd pins. Now sight-in your 20 and 30 yard pins without moving your indicators or your micro windage and elevation.

DIGITAL REACT® TRIO™

REACT® TRIO PRO™

REACT® MULTI-PIN

2 EASY STEPS

1. Sight in your 20-yard pin using the advanced tool-less micro-click windage and elevation knobs.
2. Next, step back to 30 yards and zero your next pin at that distance using the master adjustment screw. Once you have 2 pins accurately sighted in, all of your pins are set.

REACT® H4™

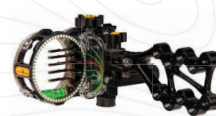

REACT® H5™

REACT® V5™

REACT® PRO 7™

REACT® PRO™

A NEW LEVEL OF CONFIDENCE

The industry's most efficient and accurate sight technology is now available in a digital single or three pin option with guaranteed accuracy down to half-yard increments. The Digital React utilizes Trophy Ridge's patented React Technology which mathematically adjusts your pins and yardage indicators to be spot on at any distance. Digital React sights give you the ability to quickly select your desired distance in record time. The sight can be setup using the standard React Technology 2-pin method or a new and even faster SPEED method that requires only one arrow to be sent down range. The Digital React sights offer new features via the large LED screen such as multiple bow profiles, various color and brightness settings, and more.

TOP NOTCH CONSISTENCY

V-NOTCH TECHNOLOGY
(PATENT NUMBER 10,746,500)

Maker of the world's most-popular arrow rest, the original Whisker Biscuit; Trophy Ridge introduces the all-new patented Whisker Biscuit V. The innovative V-Notch naturally centers the arrow using fewer points of contact, eliminating side-to-side arrow movement, resulting in consistent arrow trajectory shot after shot. This arrow rest makes tuning a breeze with its advanced windage adjustment and convenient reference marks giving you incredibly accurate and consistent results time after time.

Trophy Ridge

THE WHISKER BISCUIT

TRIED AND TRUE

It's the world's most-popular arrow rest and a shooting staple for a reason. The Whisker Biscuit is the most reliable, dependable, and safest rest available. There have been many imitators, but there's only one original.

VRSA LIGHT

The VRSA Light quiver holds five arrows using customizable single or dual arrow grippers - also includes micro diameter arrow grippers to accommodate multiple shaft sizes for a tight, secure fit. The innovative design of this one-piece quiver makes it extremely versatile, allowing you to mount it either on the sight bracket or to the bow riser with one of two included riser mount adaptors. These two mounting features create a low-profile design making it possible to sit tight to the bow. The VRSA Light is assembled with 16" rods and comes with 2 additional 10" rods, allowing you to customize the quiver length. The cam locking lever mechanism is designed to lock the quiver securely in place, along with providing a fast and quiet one-hand removal or attachment. The quiver includes a built-in rechargeable LED flashlight, on the top the quiver. With the light on you can safely navigate in low light conditions. The Trophy Ridge VRSA Light arrow quiver has all the components and features that put it in a class of its own.

FEATURES

- Riser or Sight mount option
- Built-in rechargeable LED flashlight
- Quick attachment design for fast and easy mounting and removal
- Adjustable low profile design sits tight to the bow
- Riser mount adaptors for all manufacturers
- Customizable single or dual arrow grippers
- Micro diameter arrow grippers included

TROPHY RIDGE
SLING PACK

The Trophy Ridge Sling Pack is designed to comfortably and efficiently carry the Trophy Ridge loppers, pruners, and hand saw. The carrying pack is constructed of premium canvas with durable, high-strength snaps and clasps for secure and hassle-free performance. The Sling Pack features two front pockets for carrying the Trophy Ridge hand saw and pruners and one top pocket to securely carry the Trophy Ridge loppers. Make your own trail with the tools bowhunters trust and the all-new Sling Pak from Trophy Ridge.

FEATURES

- Premium canvas
- Durable, high-strength snaps and clasps

TROPHY RIDGE
RATCHETING LOPPER TRIMMER

Built for the gnarliest and deepest woods, the all-new Trophy Ridge Ratcheting Loppers are the ultimate brush, shrub, and branch trimming tool. The Trophy Ridge Ratcheting Loppers feature anodized telescoping handles with an easy lock/unlock button that allows the trimmer to extend from 28 inches to an extended reach of 35 1/2 inches. The trimming blades are fully heat treated carbon steel with an aggressive black powder coat for extra durability. The Ratcheting Loppers have a 2 inch - 2 1/4 inch when ratcheting and a single cut diameter at 1 inch - 1 1/4 inch.

FEATURES

- Telescoping handles with easy lock/unlock
- Heat treated carbon steel blades
- 2 inch - 2 1/4 inch when ratcheting
- Single cut diameter at 1 inch - 1 1/4 inch

TROPHY RIDGE
HANDSAW

Introducing the Trophy Ridge 7" handsaw. When the blade is closed or folded, the Trophy Ridge handsaw is less than 10 inches long. When fully opened in its 180 degree locked position, the handsaw measures 16 inches in length. Rely on the tools bowhunters trust and pickup your Trophy Ridge handsaw for the upcoming season.

FEATURES

- 7 inch blade with 7 TPI and a 3-edge tooth grind
- Preset 3 point blade locking positions offer confidence and extra safety

TROPHY RIDGE
RATCHETING PRUNER

Quick snip and ditch any interference from your blind or tree stand with the all-new Trophy Ridge Ratcheting Pruner. This compact and ultra tough set of pruners let you take control of the flora around your hunting spot. The Trophy Ridge Ratcheting Pruners are 8" in length with a comfortable coated aluminum grip. The pruners have a safety locking mechanism for secure storage and transport in and out of the woods. This new hunting hand tool has a 3/4 inch cutting diameter and high carbon steel, non-stick blades for ultimate durability.

FEATURES

- 3/4 inch cutting diameter
- 8" in length
- Safety locking mechanism
- High carbon steel, non-stick blades

TROPHY RIDGE

TRIMMER KIT

The Trophy Ridge outdoor kit, consisting of loppers, pruners, and a hand saw, gives outdoorsmen everything they need to make their bowhunting space their own. The bundle of tools comes complete with the Sling Pack carrying case, ergonomically designed to keep the tools out of the way until they are needed. The tools and pack are crafted from premium materials that ensure utmost durability under the harshest conditions. The loppers, pruners, and hand saw feature high grade, extremely sharp, working blades for efficient and effortless use. The Sling Pack features extra pockets for additional storage when out in the field. Make your own trail with the Trophy Ridge outdoor tool kit.

TROPHY RIDGE

NO TIE ALUMINUM TRU PEEP

The easy to install No Tie Aluminum Tru Peep eliminates the need for serving in your peep and is locked in place by the ingenious crisscross design. Installation is easy and can be done in a matter of minutes. Use a bow press to reduce tension on the bowstring and cables and separate the two strings. Wrap the string along the bottom sidetracks of the peep then through the crisscross pattern before running along the top sidetracks of the peep. Relax the bow press to lock the peep in place and it's ready to go. This bowhunting peep is constructed of aluminum for supreme strength and durability for years to come. The No Tie Aluminum Tru Peep is compatible with all compound bows.

FEATURES

- Ingenious crisscross design eliminates the need to serve in the peep for easy installation
- Crisscross grooves provide secure tie-in
- 3/16" or 1/4" peep housing and 38-degree angle for perfect alignment on every shot
- Aluminum construction provides supreme strength and durability for years to come
- Compatible with all compound bows
- Available as a 1/4" plastic No Tie Tube Peep, with 12" of tube for every beginner

TROPHY RIDGE

NO TIE TUBE PEEP

TROPHY RIDGE

TRU-PEEP

The world's first and favorite peep sight, the Trophy Ridge Tru-Peep is all-aluminum with a legendary design that allows for a perfectly round, shaded hole at full draw. The Tru-Peep eliminates the need for protruding hoods and is kept in place by a reliable safety-tie groove. The Tru-Peep is available in eight sizes and five colors.

The SIK logo consists of the letters 'S', 'I', and 'K' in a bold, white, sans-serif font. A horizontal red line with a slight brushstroke effect cuts through the middle of the letters.

INSANELY SHARP & INTENSELY LETHAL

SIK Broadheads are the sharpest and most lethal fixed blade and mechanical broadheads on the market. The deadly and durable design provides added confidence when it comes time to take the shot. SIK Broadheads give bowhunters class leading wound channels and record setting blood trails. Regardless of whether you prefer fixed blade or mechanical, SIK has the answer for all of your broadhead needs

This insanely sharp mechanical broadhead produces a large cutting diameter starting with the bone crushing stainless steel tip and ending with three razor-sharp .035" stainless steel blades. The internal blade locking mechanism provides reliable blade retention and prevents the blades from prematurely deploying.

DESIGNED TO SUCCEED IN ANY ENVIRONMENT.

At Cajun, we live for long days on the banks and longer nights on the water. The thrill of landing a giant big head or sticking a prehistoric alligator gar gets our heart racing. That's why the 2023 Cajun line of bowfishing bows and accessories continue to bring fishermen and women best-in-class performance and durability. Our bowfishing gear is put through the test to meet the highest standard and harshest conditions. Cajun Bowfishing bows and accessories are backed by our **Limited Lifetime Warranty** for peace of mind when you're in the heat of the moment on the water.

\$12.99

ITEM#

ABF4400

CAJUN ROLLER arrow rest

- Easy to install & adjust
- Roller made from rust-proof sturdy Delrin on a threaded brass shaft

MACHINED & ANODIZED

aluminum spinning reel seat

- Machined aluminum construction make this our toughest reel seat
- Screws into the bow stabilizer bushing
- Threaded end provides for a fishing rod attachment
- Design allows for quick and tool-less reel removal

GLASS fishing rod

- Compatible with Aluminum Spinning reel mount and Machine Anodized reel seat

ALUMINUM spinning reel mount

- For mounting a spin-casting reel to the bow stabilizer bushing
- Threaded end provides for a fishing rod attachment

SLIDE RINGS arrow slides

- Helps prevent arrow snap back from tangled lines by keeping the line in front of the arrow rest at all times
- Stainless steel rings are perfect for all types of water conditions
- Slim design, allows for greater water penetration than standard slides
- Designed for use with 5/16" diameter shafts

PRO SLIDES arrow slides

- Helps prevent arrow snap back from tangled lines by keeping the line in front of the arrow rest at all times
- Single attachment point makes changing arrows much easier
- Larger slide prevents pass through to hold fish more effectively
- Designed for use with 5/16" diameter shafts
- Includes slide, hard stop and stainless steel mounting screw
