

HOMECARE SUCTION DISPOSABLE CANISTER KIT

The Dynarex Resp-O2™ Homecare Suction Disposable Canister Kit is designed to collect and contain aspirated secretions from patients in medical settings safely and effectively. Each Canister Kit comes equipped with the necessary components for suction therapy. The canister features an ultrasonically welded shut-off valve to help prevent overflow and cross-contamination. These versatile Kits are adaptable for use with most portable suction units. The Kit includes an 800 cc canister, 6' suction tubing, cuttable 16" silicone tubing, elbow connector, and a suction bacteria filter.

- Convenient kit includes necessary accessories for suction therapy
- Constructed from high-quality, durable polymer materials
- Port caps are engineered to create a snug seal to prevent vacuum loss
- Ultrasonically welded shut-off valve helps prevent overflow and cross-contamination
- Transparent canister features easy-to-read gradations for accurate monitoring
- Kit comes equipped with 800 cc canister, 6' suction tubing, cuttable 16" silicone tubing, elbow connector, and suction bacteria filter
- Compatible with most portable suction units
- Not made with natural rubber latex or DEHP
