## **Care and use**

Before first use, it is essential to hand-wash the ovenware thoroughly. This product is suitable for domestic oven use only, up to a temperature of 220 °C or Gas Mark 7. To prevent food from sticking, lightly coat the inner surface of the ovenware with grease. For improved longevity, it is highly recommended to use silicone, wooden, or nylon utensils, and to avoid metal utensils entirely. Ensure that the ovenware is not overheated, and never leave it unattended while in use. When it comes to cleaning and storing, always allow the ovenware to cool before cleaning, as it is not dishwasher safe. Hand-wash it with a mild detergent and a non-abrasive sponge, then rinse and dry thoroughly; do not store the ovenware while it is wet. Additionally, always use heat-resistant oven gloves when handling the ovenware, and avoid exposing hot items to cold liquids. If there are any signs of damage to the ovenware, it should be disposed of carefully.
