

DS-ICS50

Mifare Card

Hikvision Mifare cards set the electronic security benchmark for 13.56 MHz readers, cards, and tags. Based upon proven contactless digital radio frequency identification (RFID) technology, proximity readers interface with a wide range of electronic access control systems by complying with the Wiegand communication protocol.

Additionally, proximity cards and tags are passive devices and eliminate the need for maintenance by requiring no batteries, and can be ordered to support several proximity reader technologies.

- 13.56 MHz Frequency
- Up to 3.94" Read Range (100 mm)
- Triple Security Accreditation (ISO/IEC DIS9798-2)

Available Models:

DS-ICS50

Specifications

| DS-ICS50 | |
|------------------------|--|
| System Parameters | |
| Technology | Mifare |
| Frequency | 13.56 MHz |
| Material | PVC |
| Operation | Passive (no battery) |
| Standard | ISO/IEC 14443A |
| Security | Triple accreditation (ISO/IEC DIS9798-2) |
| Read Range | Up to 3.94" (100 mm) |
| Single Card Dimensions | 3.4" x 2.1" x 0.03" (86 mm x 54 mm x 0.8 mm) |
| Weight | 0.025 lbs (1.13 g) |
