

Tiiger

A SPARTACO COMPANY

Utility & Pole Pulling Equipment
Created by Linemen for Linemen

HYDRAULIC UTILITY **POLE PULLER**

At only 57 pounds, Tiiger's pole puller is the lightest and safest on the market.

The base plate is designed to provide for the lowest possible center of gravity, swivel and hook assembly allow for pre-tensioning of the chain and a reduction of stress on the chain. A Back Plate prevents chain roll-up resulting in the maximum lift per stroke.

More info

HYDRAULIC UTILITY POLE PULLER

Back Plate Prevents Chain Roll-up and Slippage

Engineered with the strength to take the full force of the pole pulling, and the flexibility not to crack

Swivel assembly pre-tensions the chain providing maximum lift per stroke.

Made in the U.S.A.
Made to last.

- Helps prevent personal injury associated with using a boom truck
- Reduces boom damage and maintenance cost resulting from pulling poles
- Dramatically increases productivity and cuts time
- Lifting Capacity @ 50,120 Pounds
- Swivel Fabricated With High Yield Strength Steel In Excess of 100,000 psi
- Hook Assembly Manufactured With all Stainless Steel Components
- Base Plate has the Lowest Possible Center of Gravity, Minimizing Tipping
- Low Point of Attachment lets you cut the Pole Closer to the Ground

COMPONENT PART NUMBERS

Base plate	HA0008
Swivel & hook assembly	HA0016
	(No chain or back plate)
Back plate – Standard	4040B
Back plate – Long tooth	4041B
Pole puller pad (Sold Separately)	HA0040
Hydraulic cylinder	HA0015
Chain	EF0001 (1/2" x 6 foot)

SPECIFICATIONS

Part Number	4001D
Hydraulic Cylinder	57 pounds
Base Plate	25 pounds
Back Plate	7 Pounds
Swivel Chain Hook Assembly	36 Pounds
Chain - 6 Feet - 1/2 Alloy	15 pounds
Operating Pressure	2,800 psi Max.
Lift At Maximum Pressure	50,120 Pounds
