

QX806BE QX SERIES

8" 3-WAY SHALLOW DEPTH IN-WALL REFERENCE LOUDSPEAKER

(2) 8" (203mm) Aluminum Cone Woofers (4) 1" (25mm) Beryllium Dome Tweeters in Quad-Array

The QX806BE is just one of many options in the QX series. Designed for in-wall installation, these speakers are perfect for any indoor or outdoor application where space is limited. This versatile speaker features a sleek modern appearance with a borderless aluminum grille which protrudes less than 3/16" (5mm) from the wall; it can also be mounted completely flush with one of our custom designed pre-construction boards, offering a subdued visual effect and making this speaker as unobtrusive as possible. Perfect for home theater and stereo, this speaker's high power-handling woofer offers high output over a broad range of frequencies while still maintaining a small footprint, offering a great no-compromise solution for designers and audiophiles alike. As with all QX models, this speaker comes equipped with a James Loudspeaker quad-tweeter array which delivers crisp highs over a wide dispersion angle, making these speakers some of the most versatile and effective speakers on the market. Unlike other QX models, this speaker uses beryllium tweeters which deliver undistorted, crystal clear highs balanced with the rich midrange and deep bass through a high-quality crossover network. This speaker truly delivers audiophile sound where it counts, while still implementing an integrated, elegant design.

The sealed cabinet design features all aircraft grade aluminum for strength, sonic performance, and suitability for outdoor/marine applications. For marine/outdoor applications, order the QX806BEM.

NOTE: When ordering flush mount pre-construction boards (PBF models), you must specify the thickness of the sheetrock that you will be using (1/2", 5/8" etc). This is a suffix to the part number and added to the end.

Size	33.145 h x 14.095 w x 3.95 d (in) 841 h x 358 w x 100 d (mm) depth w/grille 4.125 d(in) 104(mm)
Freq Response	45Hz-40kHz±3dB
Impedance	8 ohms
Sensitivity	96dB 2.83V / 1m
Power req.	50-300W
Woofer	(2) 8"(203mm) Aluminum
Tweeter	(4) 1"(25mm) Beryllium
Finishes	White Paintable Grille (Paintable by Request Only)
PCB	QX806PB
PCBF	QX806PBF
