UNSNAPIT™ Connector Removal Tool

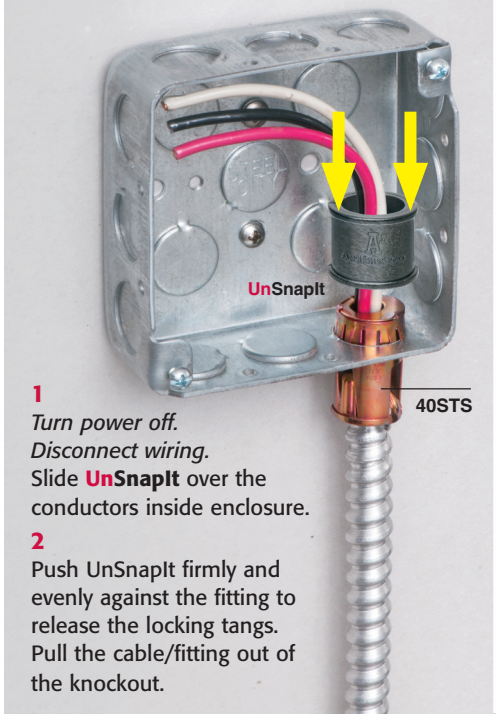

NEW! More on reverse

For Arlington & Others' Snap-in Connectors • Fits 1/2" Trade Sizes

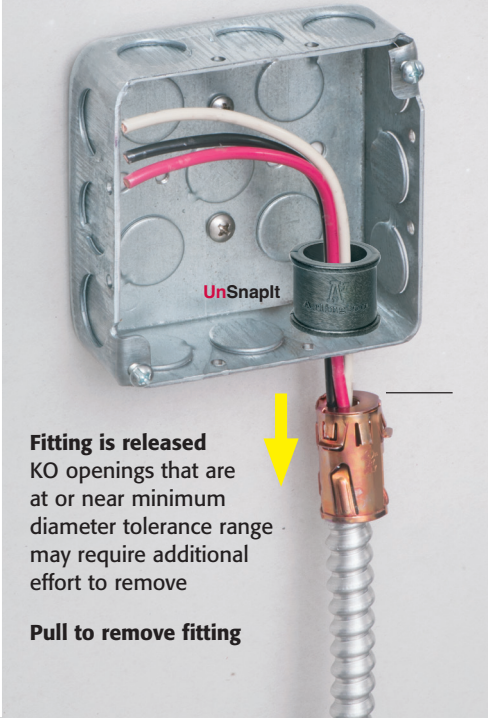

UnSnapIt™ ...the easiest way to remove an installed Snap-in Connector from a knockout – *faster than a screwdriver!*

Easy to use on 1/2" trade size **snap-in** connectors

1
Turn power off.
Disconnect wiring.
Slide **UnSnapIt** over the conductors inside enclosure.

2
Push UnSnapIt firmly and evenly against the fitting to release the locking tangs. Pull the cable/fitting out of the knockout.

Fitting is released
KO openings that are at or near minimum diameter tolerance range may require additional effort to remove

Pull to remove fitting
