

# **Warm 3 Tier Deluxe Airer Tonal**

**LASAL71717W2EU7PP**

Please retain instructions for future reference.

## **Care and use**

For optimal performance and durability of the airer, please retain these instructions for future reference. To safely collapse the airer, grasp the top and unclip one side, continuing to hold the top as you unclip the other side and gently push it to the ground. To avoid damage and enhance the longevity of the airer, it is vital to adhere to the following care and use guidelines: never move the airer once it is laden and refrain from dragging it, as this may place unnecessary strain on the legs. Always load the airer evenly, beginning with the lower bars, and be cautious not to overload it. Ensure that weight is distributed evenly across the airer, and use it exclusively indoors to maintain its integrity.

Made in **China**.
