

SALINE NASAL SPRAY

WeCare Saline Nasal Spray is designed to provide immediate relief from nasal dryness and discomfort, helping to soothe and hydrate nasal passages. This non-medicated, saline-based formula is ideal for relieving dryness caused by allergies, dry air, pollution, smoke, and frequent air travel. Containing sodium chloride, the spray moisturizes nasal passages for a more comfortable breathing experience. The compact pump bottle is sized for easy portability for on-the-go relief.

- ✦ Non-medicated saline nasal spray provides fast-acting moisture to relieve dryness and discomfort
- ✦ Soothes and hydrates nasal passages affected by dry air, pollution, smoke, or allergies
- ✦ Contains sodium chloride for effective nasal hydration
