

AimpointTM

electronic

Mounting

The mounting bar and screw clamps are specifically designed for use with Weaver bases.

To install, first remove front screw, clamp, and locking nut. Next, fit rear clamp onto rear Weaver base, making sure screw fits into groove, and tighten locking nut. Next, insert screw in proper hole of mounting bar so that it positions the clamp directly above the front Weaver base. The screw will remain above the base and need not fit into the groove. Tighten both locking nuts securely.

Bore sighting

Remove the bolt and place weapon on solid, flat surface. Aim the weapon (by looking through the bore) at a small distant target.

Move the eye from the bore to the sight, being careful not to move the weapon. When looking through the

sight, the red point should be on target. If not, adjust the sight for windage and/or elevation until red point is on target.

After carefully bore sighting, the bullet should strike within 20-30 centimeters (8-12 inches) of target at a distance of 100 meters. (110 yards)

Final adjustment is made in the normal way of shooting at a target. Be sure to re-tighten locking nuts after first few shots.

Windage adjustment

Each click of the windage adjustment knob is equal to 1 centimeter (1/2 inch) movement of the point of impact at a distance of 100 meters. (110 yards). Adjustment is made by fitting hexagonal key into center of the windage adjustment screw and turning in the direction the point of impact is to be moved.

Elevation adjustment

Each mark on the elevation adjustment scale is equal to 1 centimeter (1/2 inch) of movement of the point of impact at a distance of 100 meters. (110 yards).

Adjustment is made by fitting hexagonal key into the center of the elevation adjustment screw and turning in the direction the point of impact is to be moved.

Maintenance

Your Aimpoint sight is a precision optical and electronic instrument. It is manufactured and inspected to meet the highest standards. The only maintenance required is a regular change

of batteries and dry agent cartridge, which should be done yearly. The change should be done indoors to avoid unwanted moisture entering battery compartment.

Check to insure the battery lid and contact surfaces of the batteries have not become oxidized.

Polarizing filters

The Aimpoint sight is equipped with polarizing filters to help eliminate problems caused by glare.

The front filter is mounted on the sight at the factory. The rear filter is pushed into position and the contrast effect is adjusted by turning the rear filter right or left. Adjust the rear filter to eliminate any reflected or glaring light. Then set the intensity of the red point to the desired level. When hunting at night or in heavy rain, remove both filters; the rear filter is pulled off, the front filter is screwed off.

Accessories

Batteries which are to be used are designated PX1/RM1N or EPX-1 and are available from your gun dealer or your local camera shop.

Note: The batteries must not be plastic coated. For winter use, or in extreme cold, the PX1/RM1N are recommended.

The dry agent cartridge is supplied in a fully sealed glass vial. When changing the cartridge, break the vial, and immediately place the cartridge in the battery lid.

Aimpoint USA Inc., P.O. Box 444, 201 Elden St., Herndon, Virginia 22070, USA, Telephone (703) 471-6828

LIMITED WARRANTY

Subject to the conditions set forth below, Aimpoint USA, Inc. warrants that for a period of 12 months from the date of purchase, the Aimpoint Sight shall be free from manufacturer defects in material and workmanship. This Warranty extends only to the original buyer of the Aimpoint Sight and does not extend to any other person to whom that buyer may transfer the Aimpoint Sight.

CONDITIONS OF WARRANTY

This Warranty only applies to Aimpoint Sights on which the original serial number has not been removed or altered in any way after the purchase. This Warranty does not apply to any defects caused by normal wear and tear, improper handling, accidents, alterations, repairs made by unauthorized parties, failure to follow maintenance instructions, or by use under abnormal hunting conditions.

PROCEDURE FOR REMEDY OF DEFECTS

If any Aimpoint Sight contains or develops a defect covered by this Warranty during the warranty period, the buyer shall take the following steps in order to remedy that defect:

1. At the buyer's expense, send or deliver the Aimpoint Sight to the following address:

Aimpoint USA Inc.,
P.O. Box 444,
201 Elden St., Herndon,
Virginia 22070, USA,
Telephone (703) 471-6828

2. Include with the Aimpoint Sight a written description of the alleged defect and a copy of the original receipt for the purchase of the Aimpoint Sight which shows the date of purchase and the serial number of the Aimpoint Sight.

If the above procedure is followed and if Aimpoint USA, Inc. determines that a defect covered by this Warranty exists, Aimpoint USA, Inc. will, within a reasonable time, at its option and expense, either repair the defect or replace the Aimpoint Sight, and, at its expense, return the repaired or replacement Aimpoint Sight to the buyer. Aimpoint USA, Inc. is the only person authorized to perform repairs under this Warranty.

OTHER LIMITATIONS

1. Other Warranties.

THIS WARRANTY IS IN LIEU OF ALL OTHER EXPRESS WARRANTIES BY AIMPOINT USA, INC. ANY IMPLIED WARRANTIES APPLICABLE TO THE AIMPOINT SIGHT ARE LIMITED IN DURATION TO THE PERIOD OF THIS WARRANTY. SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY

LASTS, SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU.

2. Damages.

AIMPOINT USA, INC. SHALL NOT BE LIABLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES OR ANY OTHER LOSS OR EXPENSE DIRECTLY OR INDIRECTLY ARISING FROM ANY USE OF THE AIMPOINT SIGHT BY THE BUYER OR ANY OTHER PERSON. SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.

OTHER RIGHTS.

This Warranty gives the buyer specific legal rights, and the buyer may also have other rights which vary from state to state.
