# CyberPower

CARBON™ RACK CABLE MANAGEMENT

CRA30009

Organize overhead cable runs between and within rack rows

The CRA30009 trough system allows users to safely and securely run power distribution on top of rack enclosures. Can be used across multiple racks in a row to create a dedicated path for cable runs, reducing cable stress. This model features toolless mounting to the rack roof panel and has a grounding stud to tie-in to the enclosure and the facility ground. Compatible with the CR42U11001 and CR24U11001 rack enclosures. The CRA30009 comes with a 5-year limited warranty.

FEATURES

- Type: Cable management trough system
- Compatibility: Fits CR42U11001 and CR24U11001
- Installation: Toolless mounting
- Warranty: 5 years
