WOLVERINEBRASS®

PRESS FITTINGS

Wolverine Brass Press Fittings

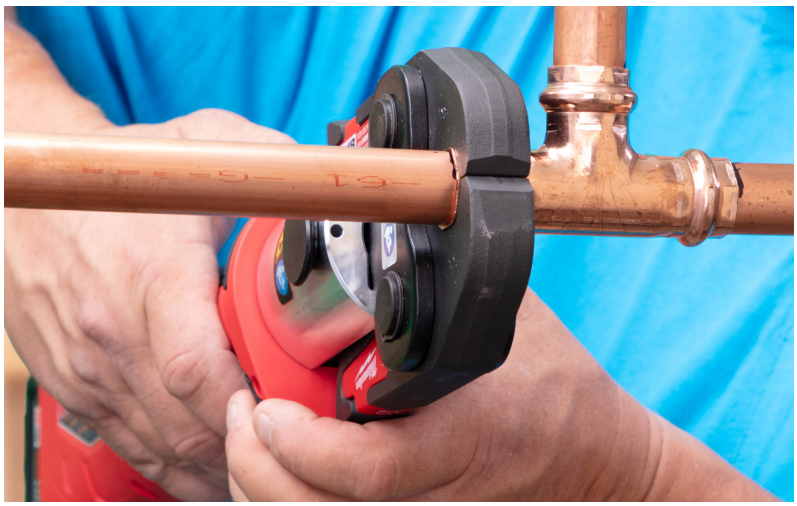

Exclusively Available From Plumbmaster

Wolverine Brass has been trusted by plumbing professionals since 1896. When speed and efficiency matter, Wolverine Brass press fittings provide secure and reliable pipe connections for copper plumbing lines every time.

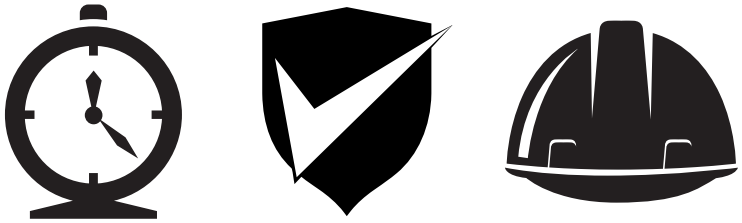

Engineered and rigorously tested for use in many popular pressing tool brands, they are compatible with Milwaukee® M12 and M18 press tools for installation.

A staple for today's toolbox, Wolverine Brass press fittings eliminate the need for tedious soldering, while cutting down on overall installation time and providing watertight connections, even on tough angles or in tight quarters. Install with confidence and trust, backed by a 50-year warranty.

- Leak detection EDPM O-ring built in for added confidence
- Made from quality, plumbing-grade materials to resist wear and perform under pressure
- Meets IAPMO Z1117. ASME B16.51 and NSF/ANSI 61 requirements
- Operating pressure of 200 psi
- Tested to perform from a 32 F to 200 F (0 C - 93 C) temperature range

WHY PRESS?

Save Time	Consistent and Reliable	Safe
Up to 50% faster than traditional methods	More than 1 billion press fittings installed in the U.S.	No open flame
Works on a wet system		No need for permits

PRESS FITTINGS FAQ'S

Smaller press fittings (1/2" – 2")

- Include a dedicated O-ring and groove that locks the fitting in place and creates a water tight seal when pressed.
- Feature four dimples that allow water to flow freely when fitting is not properly pressed.

Larger press fittings (2-1/2" – 4")

- Include a steel-toothed crimp ring, a plastic separator ring and an O-ring that locks the fitting in place and creates a water tight seal when pressed.
- Feature a larger O-ring that will create a gap between the fitting and tube, allowing water to flow freely when fitting is not properly pressed.

Wolverine Brass Press Fittings

FEATURES:

- Made from quality, plumbing-grade materials to resist wear and perform under pressure
- Leak-prevention O-ring is built in with EPDM (Ethylene Propylene Diene Monomer) that's used for sealing applications like potable water, process water, hydronic heating, fire sprinkler and compressed air.
- Brass fittings are lead-free.

BENEFITS:

- No flux, solder or gas required
- Use with copper press tools, which are sold separately

Built-in leak prevention O-ring

STOCK-EZ® Copper Press Fitting Kits

Secure your Parts

The Stock-EZ Kit boxes are designed to secure all inset boxes in place. The outer box and lid contain custom-designed securing buttons, which keep all parts contained in their inset box.

- You can remove one inset box or more and the remaining inset boxes will not shift or slip in the kit.
- You can turn the box upside down and even the tiniest parts will remain in their designated inset box.

Space Saving and Versatile

The Stock-EZ Kit boxes hold a variety of different parts in one box, allowing for better use of vehicle space. The boxes present endless organization options for even the busiest plumber.

- Stock-EZ Kit boxes are designed to be stacked, saving space in your work vehicle and at the job site.
- Stock-EZ kits fit seamlessly into all Sortimo by Knapheide van racking systems.

Durability that Lasts

The Stock-EZ Kit box is light, sturdy and impact resistant: perfect for everyday use.

- You can place the Stock-EZ kit box on sensitive surfaces without any concerns.
- The robust design will withstand tough daily use.

WOLVERINEBRASS®

WE CARRY A FULL LINE OF PRESS PRODUCTS, INCLUDING:

LAWN FAUCETS

Our collection of lawn faucets deliver reliable convenience for cleaning, maintenance, landscaping and recreational water needs.

SUPPLY STOPS

With our selection of stops and supply lines, you'll never have to worry about getting tripped up by a faulty stop again.

PRESSURE BALANCING PRESS VALVE

Our best-selling pressure balancing valve in the fastest-growing installation type.

Milwaukee-Approved Installation Tools and Jaws

M18

87092 - Milwaukee FORCE LOGIC Cordless Press Tool Kit with 1/2 - 2" Jaws

- Balanced, in-line design suitable for one-handed use
- Lightest composition for unrivaled access
- Longest calibration interval in the industry at 50,000 cycles
- Press indicator provides visual assurance of a quality connection.
- Auto-cycle ensures full press every time.
- M18 Press jaws and rings deliver unmatched versatility to press up to 4".
- Five-year tool, two-year jaws, two-year battery warranty

M12

87118 - Milwaukee FORCE LOGIC Cordless Press Tool Kit with 1/2 - 1" Jaws

- The smallest and lightest press tool in the market at only 3.8 pounds
- Balanced, in-line design suitable for one-handed use
- Press indicator provides visual assurance of a quality connection.
- 32,000-cycle calibration interval
- Interchangeable jaws enable the quick adjustments from 1/2 - 1-1/4".
- Five-year tool, two-year jaws, two-year battery warranty
