Dürma+ Foam Dressings are designed to be used in conjunction with NPWT pump systems during negative pressure wound therapy. These versatile, flexible foam sponges are made from high-tensile foam and can be cut to suit the contours of a variety of wounds.

- Premium-quality foam dressings designed for use with NPWT pump systems
- Made from high-tensile strength foam for optimal durability
- Flexible foam can be cut to contour a variety of wound shapes, allowing for an individualized fit
- Available in multiple sizes to accommodate a variety of wound types
- Single-use and sterile for optimal hygiene
- Not made with natural rubber latex
