

INSTRUCTION GUIDE

1

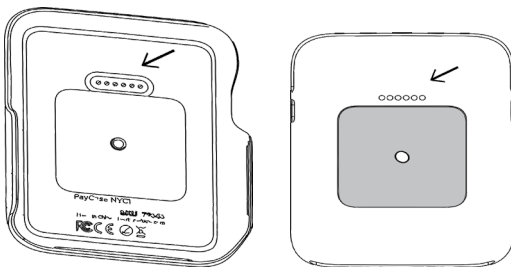

Remove the NYC-1 PayCase from the packaging. Locate your Adyen NYC-1 payment device (device sold separately).

2

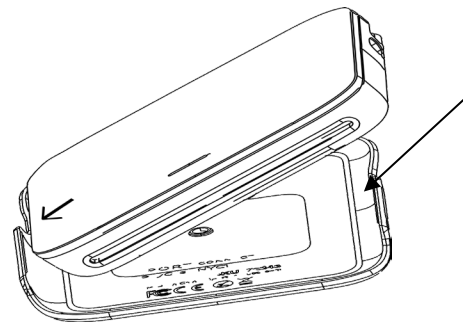

Remove adhesive tape from one side and apply in the recess of the NYC-1 case. Apply firm pressure for 30 seconds and remove the other adhesive tape.

3

Orient the NYC1 device and the Pay Case upward, be sure the charging pins face the same direction before attaching.

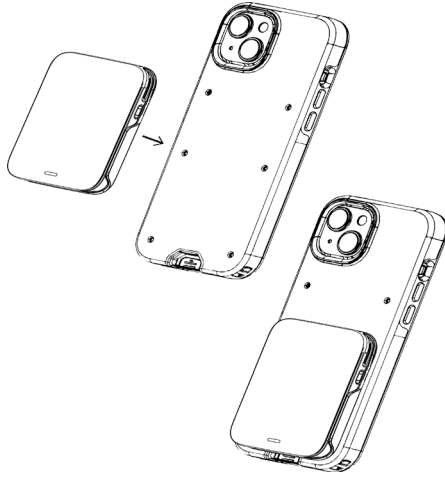

4

Insert the NYC1 device into the PayCase, starting at the bottom of the case. Press down to secure the NYC1 device into place. Apply pressure for 30 seconds to ensure a secure bond.

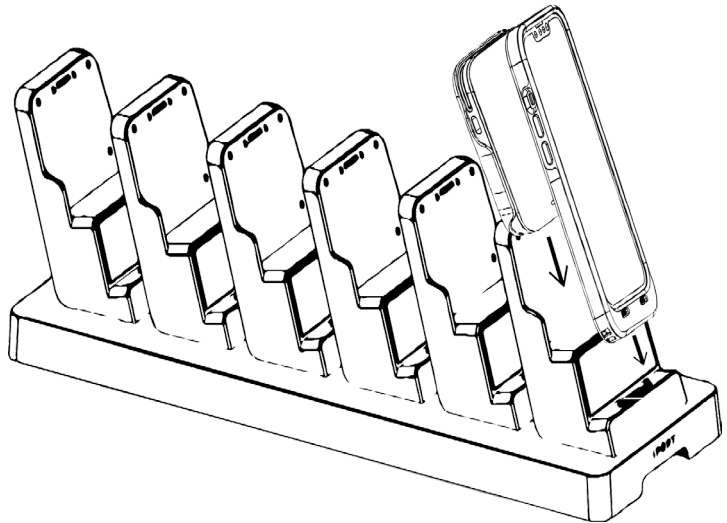

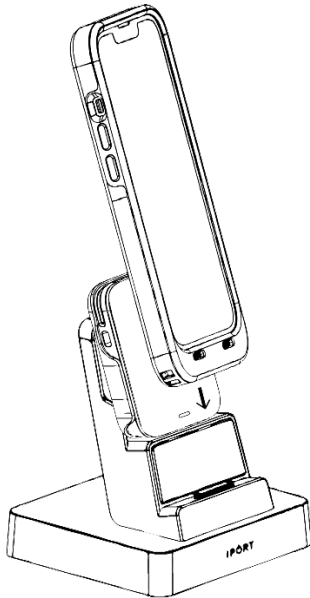

INSTRUCTION GUIDE

5

The PayCase magnetically attaches to the CONNECT Phone Case. You are now ready to tap, dip or swipe cards for payment.

6

The Connect Phone Case, PayCase NYC-1 and the Adyen NYC-1 payment device can be charged on a single or multi-dock station.

- a. Remove the NYC-1 payment device first and connect to the charging dock.
- b. Next, connect the Phone Case face out on the dock. IPORT docking stations have visible LED indicators that appear green when IPORT products are fully charged.
