

Features

- **Bright Safety Yellow Attracts Attention**
- **Durable Powder-coated Epoxy Finish Withstands the Harshest Environments**
- **Corrosion-resistant Aluminum Construction**
- **Custom Colors and Graphics are Available**
- **Silk-screened Graphics**
- **Accommodates RED ALERT® Flush-mount Analog, VoIP and WiFi Telephones (telephones sold separately)**

The Model 234WM-202 RED ALERT® Elite Wall-mount Communication Station is designed to house standard size GAI-TRONICS' flush-mount series telephones. The wall-mount communication station is bright safety yellow with black EMERGENCY graphics on each side for increased visibility. The highly visible 540-001 or 541-001 blue LED strobe, with "constant on" light, is housed in the upper portion of the wall-mount communication station to provide easy identification of its locations. In addition, an LED panel light illuminates the phone surface for nighttime use. GAI-TRONICS 234WM-202 wall-mount communication station attracts attention by its mere presence.

The 234WM wall-mount stanchion is ideal for:

- **College campuses**
- **Parking garages**
- **Shopping malls**
- **Amusement parks**
- **Hotels**

Model 234WM-202
