

# **Salter Recycled Ceramic 28cm Stirfry**

**BW12882EU7**

Please retain instructions for future reference.

## **Care and use**

Before first use, it is important to hand-wash the cookware thoroughly. This cookware is suitable for use on hobs only, including induction. For optimum energy efficiency, place the cookware on hob rings that correspond to the size of the base. Care should be taken to ensure that flames do not overlap the sides or handles. To enhance the longevity of the cookware, it is advisable to use silicone, wooden, or nylon utensils, and to avoid using metal utensils. Overheating the cookware or allowing it to boil dry should be avoided, and it is essential never to leave it unattended while in use. While the non-stick coating may be prone to discolouration, this does not affect the cookware's functionality. To prevent damage to ceramic hobs, always lift the cookware instead of dragging it across the surface. Please note that screws may loosen over time; if this occurs, they should be carefully retightened using a screwdriver. When cleaning and storing the cookware, allow it to cool completely before washing, as it is not dishwasher safe. Hand-wash with a mild detergent and a non-abrasive sponge, then rinse and dry thoroughly. Additionally, do not store the cookware while it is wet. Caution should always be exercised; use heat-resistant oven gloves to handle the cookware, and never expose hot cookware to cold liquids. If any damage is evident, please dispose of the cookware carefully.
