## Minka-Aire® 45° Slope Ceiling Adapter Kit (SCA)

Minka-Aire® SCA Kit was designed to meet the needs of the home building industry as demand increases for higher, more steeply angled ceilings. Minka-Aire® A245 SCA is used with  $\frac{3}{4}$ " I.D. DR5 Series Downrod.

The above kit as shown includes the mounting bracket, the angled ball assembly and locking pin. For fans that weigh in excess of 35lbs, simply use the hanging bracket that comes with the fan in the box (75lbs rating standard) and the kit's angled ball assembly and locking pin. (Fan model numbers F528, F529 and F531 do not apply because of their unique Downbridge™ hanging systems)

When ordering SCA specify finish to match your needs.

Sloped Ceiling Application with standard hanging systems for slopes up to a maximum of 21°

### Sloped Ceiling Installation

Minka-Aire® ceiling fans equipped with universal hanging systems may be hung from standard or vaulted ceilings up to 21° pitch.

Hand-painted finishes and components made from natural material may reflect variations in color and texture. These are not imperfections and enhance the unique appearance of each and every Minka-Aire® fixture. Specifications are subject to change at any time.
