## Stick Up Cam Pro

Our most advanced indoor/outdoor camera with next-level security features.

1080p HDR Video & Color Night Vision

3D Motion Detection with Bird's Eye View

Two-Way Talk with Audio+

Weather Resistant for Indoor/Outdoor Use

Color Pre-Roll

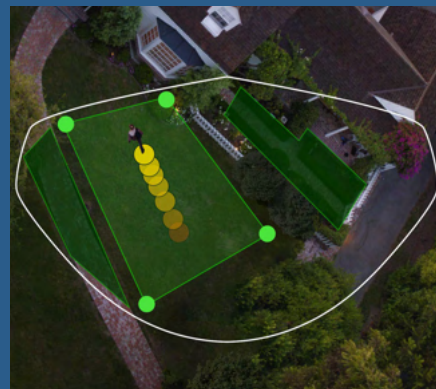

Dual-Band Wi-Fi

### Know like a Pro, outside or in.

A flexible weather-resistant camera that puts pro-grade security exactly where you need it. Stick it up anywhere you want to see and hear more with advanced features like Radar Motion Detection, HDR video, and Audio+.

### 3D Motion Detection with Bird's Eye View

Help protect your property with Radar Motion Detection - allowing you to pinpoint movements and reduce false alerts for unmatched security coverage.

### Clear and sharp around the clock.

Stick Up Cam Pro captures every detail in crisp 1080p HDR video. Dark out? Doesn't matter. Get a vivid picture at any hour with Color Night Vision. Or shoo away intruders using Two-Way Talk's enhanced audio.

## Add-Ons

### Ring Chime Pro

Hear notifications anywhere in your home when motion is detected. Plus, amplify all your devices and boost your Wi-Fi network to all your Ring Video Doorbells and Cams.

### Voice Assistant

Enjoy hands-free home monitoring with select Alexa-enabled devices. Hear custom notifications and use two-way talk with audio-only Echo devices, and launch video with Echo Show, Fire TV and Fire Tablets.

### Ring Solar Panel (2nd Generation)

With at least 3-4 hours of direct sunlight a day, the Ring Solar Panel connects to Stick Up Cam Pro for a continuous charge, so you'll never run out of power.

## Frequently Asked Questions

### What is the difference between Stick Up Cam and Stick Up Cam Pro?

Ring Stick Up Cam includes Live View, Two-Way Talk, Advanced Motion Detection, Customizable Motion Zones, Customizable Privacy Settings, Color Night Vision, and an easy to use app. Ring Stick Up Cam Pro builds upon all these great features with a new design and advanced features including radar-powered 3D Motion Detection, Bird's Eye View, Bird's Eye Zones, Audio+ for enhanced audio, HDR video, and dual-band Wi-Fi.

### What is 3D Motion Detection?

3D Motion Detection uses radar technology to identify where and when a motion event will be recorded. The radar sensor measures distance and angle of objects in front of the camera, allowing for more specific motion detection alerts. Within the Ring App, users easily customize where on their property they want the camera to start recording when an object crosses a threshold. And, once 3D Motion Detection is set up, it powers Bird's Eye View which provides an aerial map view of motion events in front of the camera and clearly shows the path that visitors take when visiting the property.

### What's the dual power? How do I change the power source?

Stick Up Cam Pro has options for dual power. This means that it has a primary power source with a backup power source to keep you connected. Stick Up Cam Pro (Battery) comes with a Quick Release Battery Pack, and you can purchase the Indoor/Outdoor Power adapter (sold separately) for dual power. With the battery pack inserted, the camera will be powered by the adapter and will use the battery as backup.

Stick Up Cam Pro (Plug-In) comes with an AC Adapter that plugs into standard power outlets, and you can also purchase a Quick Release Battery Pack (sold separately) for dual power. With the battery pack inserted, the camera will be powered by the adapter and will use the battery as backup.
