

SIZE **89** MM CT SCREW CAP

METAL CLOSURE  
CONTINUOUS THREAD DIMENSIONS

0.542 MAX  
Helix Angle  
1° 31'  
Six Threads Per Inch

0.070 MAX

DISTRIBUTED BY:

REF NO.:

DWG31931

DESCRIPTION:

89-400 Metal Screw Cap with Platisol Liner, No Button

## PVC-Based, White Foam Plastisol

**Use: Provides a sealing gasket for metal closures. This foam compound is preferred for low to medium temperature customer fills. Suitable for hot fill less than approx. 190° F; Suitable for hand capping.**

All materials used in the manufacture of this compound comply with Title 21 CFR, Part 177.1210, Closure with Sealing Gasket for Food Containers.

The raw materials DO NOT include any of the following: Phthalates, Azodicarbonamide, Semicarbazides – or any other substances identified as belonging to the semicarbazide chemical group under EU Directive 2004/1/EC amending Directive 202/72/EC. This product contains no melamine and there exists no potential for specific toxic solvents listed in the EP/USP/ICH residual Class I/II/III to be present in the production.

Based on the information provided to Keystone Cap by its plastisol supplier, we have found that the standard white foam plastisol does not contain Bisphenol A (CAS 80-05-7). Please note that we do not normally test for this material. We certify that we do not intentionally add or use BPA in the manufacture or handling of the above products.

Keystone Cap has also found that this plastisol does not contain SVHC Candidate list/Annex XIV materials above the applicable threshold (0.1%) as updated by the European Chemical Agency as of December 17, 2015.
