

Rotating D-Ring Roof Anchor

360 Degrees of Anchored Protection

Engineered for proven strength and freedom of movement, the FallTech® Rotating D-Ring Roof Anchor provides secure anchorage with a 360-degree rotating D-ring for total mobility.

Designed for both strength and flexibility, this temporary and reusable anchor features a 22-gauge steel base, providing an uncompromising foundation for secure attachment. Unlike traditional single-line anchors, its innovative cross-pattern design enhances structural integrity, allowing you to work with confidence in demanding conditions.

Beyond its superior strength, the **Rotating D-Ring Roof Anchor** is built with worker mobility in mind. Its steel 360-degree rotating D-ring ensures greater movement, keeping workers securely tethered without limiting flexibility. Whether navigating complex job sites or adjusting positions frequently, this anchor delivers the protection you need without compromise.

The **Rotating D-Ring Roof Anchor** is suitable for use on:

- Wood roof
- Steel decking
- Steel Z-purlins

The **Rotating D-Ring Roof Anchor** is compatible with:

- Horizontal lifeline systems
- Self-retracting lifelines
- Lanyards.

Each anchor includes fasteners for a quick and secure installation. From the leaders in fall protection, the FallTech Rotating D-Ring Roof Anchor is engineered to keep you safe, mobile, and confident on the job.

The Rotating D-Ring Roof Anchor will launch with the following part number:

Part Number	Description
7420	Rotating D-Ring Roof Anchor (Fasteners Included)

The Rotating D-Ring Roof Anchor complies with the following:
