EXTRA-WIDE TREADS FOR ALL-DAY COMFORT

Extra-wide, deep treads are designed like stairs—not rungs—giving you stable, natural footing that reduces fatigue and eliminates pressure points. No wobble, no strain, just confident steps every time.

ADDED SUPPORT. MORE CONFIDENCE.

The Jumbo Step's rotating handrail gives you extra stability and balance while climbing or standing. Fold it down and it creates a natural, staircase-like transition — perfect for stepping safely into or out of truck beds and other elevated surfaces.

WORK-READY TOP CAP

The handrail's integrated tray holds your gear at the top, keeping everything you need close and ready.

SECURE, STABLE CLIMB

Oversized, non-slip rubber feet with a wide base keep the ladder steady on hard floors, carpet, or shop surfaces, even when positioned over floor drains.
