

## DIGITAL THERMOMETERS

WeCare Digital Thermometers deliver quick and precise temperature readings for oral and axillary (underarm) use. Designed for versatility, they display results in either Fahrenheit or Celsius on a clear digital screen. An audible alert sounds when the reading is complete, providing added convenience. The memory function automatically stores the last recorded temperature for easy tracking, while an automatic shut-off feature helps conserve battery life.

- + Accurately measures temperature by mouth or under the arm
- + Temperature measured in either Fahrenheit or Celsius
- + Audible alert when reading is complete
- + Automatic shut-off function conserves battery life
