

# In-Wall Speaker

The architectural speakers by Sonance for focused listening.

SONOS

Enjoy bold sound for TV, music, and more with Sonos In-Wall by Sonance. Power these wired speakers with Amp for the full Sonos experience, including custom Trueplay™ tuning.

### The Exceptional Sonos Experience

When paired with Amp, these speakers unlock all the benefits of the Sonos system, including an easy-to-use app that works with all your favorite streaming services, Apple AirPlay 2, regular software updates that improve your listening, and the ability to add Sonos speakers and components to your setup at any time.

### Power More with Amp

Power up to three pairs of Sonos by Sonance Architectural speakers with a single Sonos Amp for even greater sound coverage.

### Enhanced margin

Based on dealer tier (60%, 65%, 70%)

### Customized Sound

Specially designed acoustic components enhance fidelity and equalize tonality across the collection. Sonos Amp unlocks Trueplay™, which tunes specifically for the size, construction, and furnishings of the room where the speakers are installed.

### Designed to Disappear

The specially designed grilles can be painted to blend into the wall.

## Tech Specs

Enjoy clear, richly detailed sound that fills the room at any volume.

### Easy to Use

Control is simple with the Sonos app, Apple AirPlay 2, and your voice.

### Listen Your Way

Customize your system and play what you want, where you want.

**"When we installed a set of Sonos by Sonance In-Wall speakers in our Showroom, powered by a Sonos Amp, I thought they sounded about the same as comparably priced in-walls from other manufacturers we had used in the past. Then we turned on the custom DSP setting, and WOW! You would've thought we added a subwoofer to the room, for the amount of improvement noted in the low end!"**
