PT9800SH

GE Profile™ 30" Combination Double Wall Oven with Convection and Advantium® Technology

DIMENSIONS AND INSTALLATION INFORMATION

NOTE: Cabinets installed adjacent to wall ovens must have an adhesion spec of at least a 194°F temperature rating.

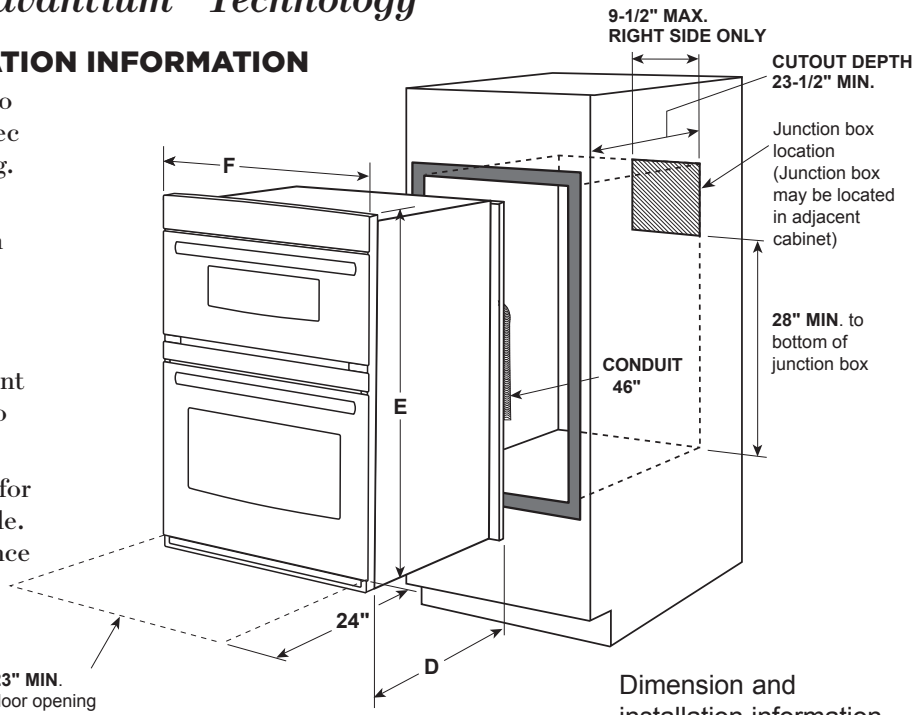

INSTALLATION INFORMATION:
Before installing, consult installation instructions packed with product for current dimensional data.

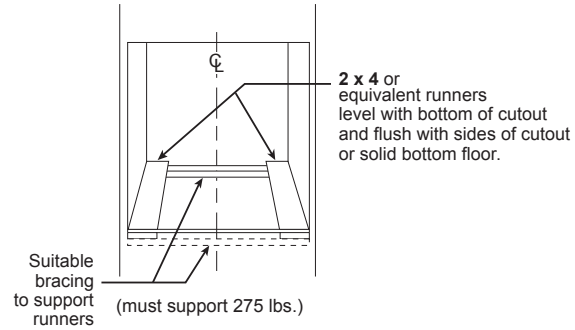

Door handle protrudes 3" from door face. Cabinets and drawers on adjacent 45° and 90° walls should be placed to avoid interference with the handle.

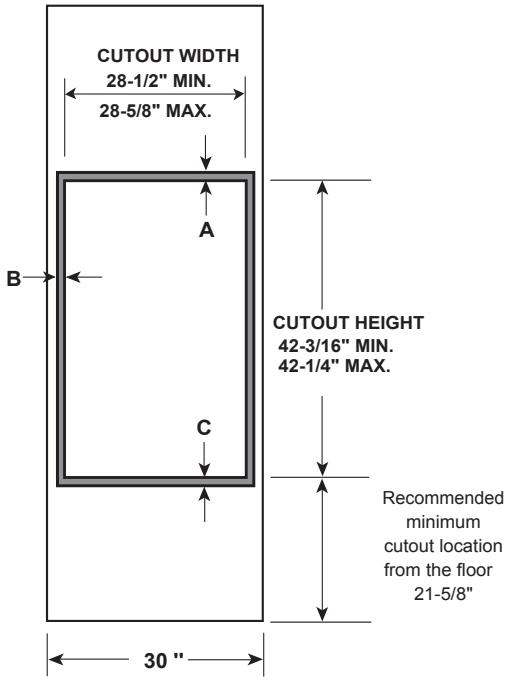

Electric wall ovens are not approved for installation with a plug and receptacle. They must be hard wired in accordance with installation instructions.

NOTE: These ovens are not approved for stackable or side-by-side installations.

KW RATING	
240V	7.2
208V	5.4
BREAKER SIZE	
240V	30 Amps
208V	30 Amps

Dimension and installation information are shown in inches.

ATTENTION INSTALLER: All electric wall ovens must be hard-wired (direct-wired) into an approved junction box. A plug and receptacle is NOT permitted on these products.

NOTE: If the cabinet does not have a solid bottom, two braces or runners must be installed to support the weight of the oven. For single ovens, the runners and braces must support 200 lbs (91 kg). For double ovens, the runners and braces must support 375 lbs. (170 kg).

NOTE: If marks, blemishes or the cutout opening are visible above the installed oven, it may be necessary to add wood shims under the runners and front trim until the marks or opening are covered.

NOTE: If the cabinet does not have a front frame and the sides are less than 3/4" (1.9 cm) thick, shim both sides equally to establish the cutout width.
