

TRI-GEN™
by winco

Pro Release™

**TRI-PLY INDUCTION-READY
PFAS-FREE PRO-RELEASE™
NON-STICK FRY PANS**

✓ FEATURES

- **Tri-Ply Construction for Even Heat**
Aluminum core delivers fast, consistent heat distribution while minimizing hot spots
- **PFAS-Free Pro Release™ Non-Stick Treatment**
Reduces the need for oils and sprays while supporting easy food release and cleanup
- **Commercial Durability with Metal Utensil Safe Surface**
Engineered to withstand high-volume kitchen use without compromising performance
- **Induction-Ready and Multi-Surface Compatible**
Works across gas, electric, ceramic, and induction cooktops
- **High-Heat Versatility up to 932°F (500°C)**
Supports stovetop, oven, and broiler applications with reliable performance

**INDUCTION-READY
TRI-PLY CONSTRUCTION**

"I was thoroughly impressed by the fry pan's exceptional release properties and outstanding durability. Food releases effortlessly with little to no oil, and even after repeated high-heat use with metal utensils, the surface showed no wear or scratching.

The PFAS-Free treatment eliminates any concern about peeling or burning, while still delivering professional-grade performance up to 500°C (932°F). This innovative technology represents a major step forward in cookware that combines superior release, resilience, and versatility."

- Master Chef Robert Mancuso
