

# COCKPIT MATT

Technical Data Sheet

Creation Date 13/07/2018

Version I

CRC Cockpit Matt renovates the interior of cars, leaving a fresh citrus smell.

## Where to use?

Polishes dashboards, bumpers, spoilers, vinyl roofs. Refreshes all sorts of plastic and rubber. Do not use on steering wheel and gear shift.

## How does it work?

The added silicone will clean and renovate all kinds of plastics and rubbers in the car's interior. It removes stains and nicotine.

## What to expect?

While cleaning (your dashboard), the product will leave a non-staining, clear water-repellent film, to protect your car's interior from colour fading and hardening caused by ozone, U.V. rays and oxygen. It simply renovates the car's dashboard in a few seconds.

## Be prepared

- Before use, carefully read and observe the warning texts on the label
- Always make sure to have a good ventilation.
- Avoid open fire or other sources of ignition in the same room.
- Dispose empty cans according to your local legislation.

## Help for a good application

- For large surfaces: spray a light even film and spread out with a lint free cloth.
- For small surfaces: spray on a lint free cloth and then apply on the surface.
- Repeat if necessary.
- Do not use on energized equipment.
- To remove residues or excess product, use CRC Power Clean.

## Technical data (Aerosol)
