

DynaGo™ Duo Transport Rollator

The DME Care Solutions DynaGo Duo Transport Rollator is a versatile mobility aid that combines a durable rollator with the convenience of a transport chair. Designed to support independence, it features large locking wheels for added safety across a variety of terrains, height-adjustable handles, and a padded seat with under-seat storage.

- Combines the functionality of a stand-up walker and sit-down transport chair
- Ergonomic handles adjust arm height from 35.43" to 39.96" for customized comfort
- Flip-up padded seat includes under-seat storage pouch
- Padded backrest can be removed or used as a push handle
- Fold-down footrests add comfort during seated transport
- Large locking wheels with reliable braking system provide improved safety
