

COMPONENTS

- A Naughty Dog
- 2 Legs to be inserted into Dog
- 100 Homework Sheets
- 12 Doggie Treat Tokens
- Sand Timer

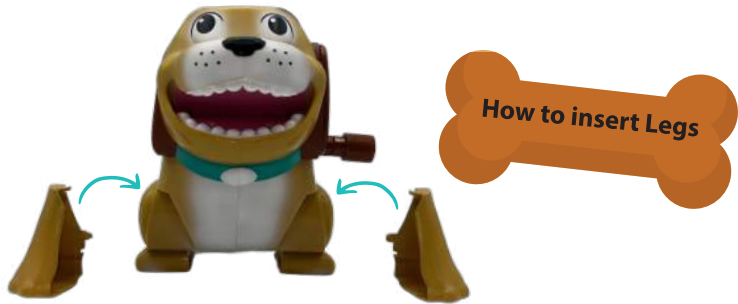

OBJECT OF THE GAME

Be the player with the most Doggie Treat Tokens at the end of three rounds, meaning each player guesses an image three times. In certain situations, all players will enter a Champion's Challenge.

SETUP

1. Assemble the Dog by inserting one Leg into each side as shown below. (Please note that Legs can be disassembled from the Dog for storage in the game box by pulling the Legs to the side of the Dog to unsnap them.)
2. If this is the first time playing the game, players punch out the Doggie Treat Tokens
3. Place the Doggie Treat Tokens, Sand Timer and Homework Sheets facedown near the Dog.

PLAYING THE GAME

1. The youngest player (Player 1) goes first by selecting a Homework Sheet. The player may select any Homework sheet the player wants. The player to the left (Player 2) will try to guess the image after the Dog eats it. Other players should cover their eyes as Player 1 selects the Homework Sheet.
2. Player 1 carefully inserts the Homework Sheet into the Dog's mouth upside down so that other players cannot see the image. Player 1 turns the crank while feeding the paper into the Dog's mouth. After the Sheet

is fully "eaten" by the Dog, players will note that the Sheet exits the Dog's rear end in strips that will be face down.

3. Player 2 then turns over the strips and flips over the Sand Timer. Player 2 must assemble the strips to guess the image before the Timer runs out.
4. If Player 2 successfully guesses the image, the player receives a Doggie Treat Token as a reward for saving the Homework! If Player 2 does not correctly guess the image, the Treat Token goes to Player 1.
5. Play continues to the left with one player selecting a Homework Sheet and feeding the Dog, with the next player guessing the image.

Note: If any player questions what the image on a Homework Sheet is and the players cannot agree, a complete list of the images included in this game on the next page.

Players can also make new drawings and upload them to share with other players around the world at ugames.com/drawings.

WINNING THE GAME

After three rounds, players add up their Doggie Treat Tokens. The player with the most Doggie Treats is the winner!

CHAMPION'S CHALLENGE

If two or more players have the same number of winning Doggie Treats, all players enter a Champion's Challenge. The players enlist a parent, sibling or caregiver in the house to help. This person is called the Master. The Master chooses and feeds one Sheet into the Dog's mouth. When the strips come out of the Dog's rear end, the Master pulls them out face down. The next player in guessing order in the game goes first. The Master places one strip face up and that player gets one guess to identify the image correctly. The Master places the next strip face up on the table. The player to the left tries to assemble the image and gets one guess. Play continues to the left with each player trying to assemble the strips with one guess. The first player to correctly guess the image wins the game!

Important details about this game

Never place anything other than paper provided in this product or printer paper no thicker than 120 GSM or 32 lb (standard home office paper only) in the Dog's mouth. Reprint Homework Sheets from this game, as well additional images at: ugames.com/drawings
