Buster + Punch LED Dimmer Module

By Buster + Punch

Description

The LED Dimmer Module featuring next-generation technology developed specifically for LED dimmable bulbs, low-voltage and LED drivers. The module works exclusively with the Buster + Punch US range of wall plates, dimmer knobs and detail kits. It operates with a push on/off rotary dimmer action for pinpoint dimming accuracy, and can be used with single-pole or 3-way circuits. Intelligent load matching for enhanced compatibility. Maximum load: 250W for LED, 300W for halogen/incandescent. Designed for standard wiring. Not compatible with 0-10V or retractive switches. Learn more about Buster + Punch Electricity Collection [here](#).
