## Porcelain Stone®

Garden is a porcelain tile collection created specifically for outdoor applications, brought to you by Crossville. This isn't your garden variety stone look line. Garden is designed to replicate three unique natural stones with authentically nuanced color, shading and texture, and it's engineered to outperform real stone in its resistance to outdoor elements such as extreme temperature, moisture and mold.

The line's three colors are the essence of natural inspiration. Belvedere is a rich beige with refined undertones, Arboretum is an elegant yet earthen red, and Colonnade is a contemporary take on the subtle, smoky metallics of ancient stone. Size options include 6 x 6, 6 x 12, 12 x 12 and 12 x 24 field tiles, as well as a bullnose for finished looks. The line's distinct texturing blends beautifully in outdoor settings.

This unique collection is globally sourced and is ideal for covering exterior vertical or horizontal surfaces. Designed for superior beauty and performance, Garden is what's "in" for outside.

Garden with its heavily textured surface is specifically recommended for exterior floors, walls and interior transitional spaces in commercial and residential applications. If offset pattern is required for tiles 18 inches or longer, Crossville® recommends an offset of not greater than 33%. See [CrossvilleInc.com](http://CrossvilleInc.com) for detailed exterior installation tips.

# Specifications

## Sizes TX Finish

## Sizes & Finishes

### Field Tile

Available in all colors

Nominal (in)	Actual (in)	Thickness (in)	Finish
6 x 6	5-13/16 x 5-13/16	3/8	TX
6 x 12	5-13/16 x 11-13/16	3/8	TX
12 x 12	11-13/16 x 11-13/16	3/8	TX
12 x 24	11-15/16 x 23-7/8	3/8	TX

Note: Crossville recommends a grout joint of 3/16 to 1/4 inch.

## Coordinating Trim

Available in all colors

Nominal (in)	Actual (in)	Thickness (in)	Finish
3 x 12 Single Bullnose	2-15/16 x 11-13/16	3/8	TX

3 x 12 Single Bullnose

## Product Performance

Breaking Strength	> 500 lbf	ASTM C648
Bond Strength	> 200 psi	ASTM C482
Chemical Resistance	Unaffected	ASTM C650
Frost Resistance	Resistant	ASTM C1026
Water Absorption	≤ 0.50%	ASTM C373
Scratch Hardness	7	Mohs Scale

## Wet Dynamic Coefficient of Friction Range

TX	0.50 - 0.60	AcuTest <sup>sm</sup>
----	-------------	-----------------------

## Shade & Texture Index

Garden has a shade variation of V3.

V1	V2	V3	V4	V1 Uniform appearance
				V2 Slight Variation
				<b>V3 Moderate Variation</b>
				V4 Substantial Variation

This porcelain tile product is produced with a V3 variation. Inspect the product upon delivery and for best results, blend tile from several cartons during installation.

### Recommended Use

Garden with its heavily textured surface is specifically recommended for exterior floors, walls and interior transitional spaces in commercial and residential applications. If offset pattern is required for tiles 15 inches or longer, Crossville® recommends an offset of not greater than 33%. If an offset greater than 33% is specified, specifier and owner must approve mock-up and lippage. See [CrossvilleInc.com](http://CrossvilleInc.com) for detailed installation instructions.

### Care and Maintenance

Regular cleaning is the best way to keep Garden tile looking good for years to come. Sweep away loose debris, then spray clean with a hose. For transitional areas, use of a stiff bristle brush may be necessary.

When occasional deep cleaning is required for particularly dirty or stained areas, the use of a wet vacuum in conjunction with a stiff bristled deck brush is recommended. There is also an array of power washing and auto scrubbing equipment by Karcher (800) 444-7654, [www.karcher-usa.com](http://www.karcher-usa.com), Oreck (800) 989-3535, [www.oreck.com](http://www.oreck.com) and Tornado (800) 551-6507, [www.tornadovac.com](http://www.tornadovac.com) that can greatly improve the speed and efficiency of cleaning large exterior or transitional surface areas.

### Hydrotect

Our porcelain tiles are available with Hydrotect. Crossville's revolutionary invisible coating harnesses the power of light, water, and oxygen to create the best defense against dirt and pollution. Whether indoors or out, floors and walls stay cleaner, providing a superior experience in any space. For complete details check our website at [CrossvilleInc.com](http://CrossvilleInc.com).
