Please retain instructions for future reference.

Care and use

To ensure the longevity and proper maintenance of the sink caddy and stone tray, it is essential to remove the stone tray prior to cleaning the sink caddy. Hand-wash the sink caddy using a mild detergent, as it is not dishwasher safe. For the stone tray, gently rinse it with warm water. If you encounter tough stains, you may soak the stone tray in warm water mixed with a mild detergent; however, the stone tray is also dishwasher safe with a mild detergent. Please refrain from using bleach during cleaning, as this may lead to discolouration. Additionally, avoid scrubbing the stone tray, as this can damage the surface. It is advisable not to leave the stone tray in direct sunlight due to the risk of discolouration. Finally, allow both the stone tray and sink caddy to dry naturally.

Made in **China**.
