Custom Look with Built-in Flexibility

Complete your kitchen with the look of a built-in refrigerator using a coordinating trim kit. Pair the all refrigerator with the matching all freezer for a dramatic side-by-side statement or install each separately to suit your space. Available in Stainless Steel, Matte White or Matte Black to complement your personal style.

Designed for the Way You Entertain

Enjoy 19 cu. ft. of spacious refrigerator storage with room for fresh favorites, entertaining essentials and everything you need to host with confidence. Pair with the matching all freezer for an impressive 38 cu. ft. of combined storage.

Unmatched Visibility Meets Undeniable Style

The bright, uniform glow of the LED Light Wall spans the back wall of the refrigerator, providing enhanced visibility across every shelf so it's easy to find what you need.

Internal Water Dispenser

Enjoy fresh, filtered water from a discreetly integrated dispenser that preserves the clean, sophisticated look of your refrigerator while providing convenient one-handed access.

Premium Water Filtration

Included premium refrigerator water filter reduces lead, chlorine, microplastics, PFOA/PFOS, and other impurities (replacement filter sold separately).

Designed Around Your Style

Create room where you need it most with extra-large adjustable door bins featuring elegant copper accents that accommodate tall bottles, gallon containers and everyday favorites.

Fresh Favorites Within Easy Reach

Four full-extension storage drawers glide open smoothly and feature dedicated LED lighting, keeping fresh favorites organized and within easy reach.

Flexible Storage for Every Occasion

Reconfigure adjustable glass shelves to accommodate tall pitchers, serving platters and oversized items, so you're always ready for everything from weeknight dinners to weekend entertaining.

Keep Your Leafy Greens Twice as Long

A Humidity Control System provides an environment for leafy green vegetables to last 2.5x times longer than standard vegetable drawers. (*Based on internal testing vs. similar size vegetable drawers with humidity controls from a leading competitor.)

Connected Convenience at Your Fingertips

Control and monitor your refrigerator from anywhere with the SmartHQ™ app. Receive door-open and high-temperature alerts, adjust temperature settings, check water filter status, customize LED Light Wall brightness and more.

Thoughtfully Integrated Controls

Sleek internal controls let you adjust temperatures, activate Turbo Cool and receive water filter reminders while maintaining the refrigerator's clean, streamlined design.
