

SENSORY BIN

unicorn

3+

Enjoy hours of imaginative play! Scoop, sort and explore the treasures inside your sensory bin.

CARE AND SAFETY

- Children should be supervised during play - not suitable for children under 3.
- Prepare the area under the bin with a towel or table cover to collect any spills.
- Children should wash their hands before use.
- Sensory Sand should be kept away from the eyes, nose and mouth. If contact should occur, rinse the area with water.
- Water and humidity will change the consistency of your sensory sand - add a bit of water or air dry as needed to return it to its original texture.
- Wash the accessories as needed with warm soapy water.
- Keep the sensory bin closed when not in use.

WARNING:

CHOKING HAZARD - Small parts.
Not for Children under 3 years.

Assemble

Have an adult gently empty the bags of sensory sand into the bin in sections. Spread sensory sand out to cover the surface evenly. Open and arrange all other items in the bin.

Play!

Shovel, mold and play while engaging your senses. Have fun creating an unicorn adventure and molding shapes in the sensory sand.

Note to Parents - Using the shovel and sand molds are a fun way for your child to practice their fine motor skills and hand-eye coordination.

Fun things to try:

- Count the items inside the bin.
- Make up a story about your unicorn adventures.
- Identify the colors of each item.
- Mix some of the pink and blue sand. What color do you get?
- Close your eyes and grab an item from the bin. See if you can identify it using your sense of touch.
- Memory game: Parents - hide some objects under the sensory sand. Have your child guess what's missing.
