

May 2026

Dear Customer,

Thank you for your valued business and continued support of Danco, LLC (Danco) and its brands. As internet selling continues to evolve and grow, Danco strives to support the internet selling channel as it provides increased access to our brands for new and existing consumers.

Danco continues to make investments in product design, development, and technology to bring innovative products to market. Danco has established a strong reputation for providing high-quality, innovative, and value-added products with a premium image. We value the investments you make in the Danco brands to grow your business. To support this goal, Danco implemented an IMAP Policy in 2017 to create a fair competitive landscape for its retail and distribution partners as well as to protect Danco's reputation and brand image.

Please note, as stated in our IMAP Policy, each Retailer is responsible for conveying the IMAP Policy to any third-party reseller to which it sells and for ensuring that any third-party reseller complies with the IMAP Policy. Failure of the Retailer to enforce the IMAP Policy among third parties to which it sells will constitute a violation of the IMAP Policy by the Retailer.

The IMAP Policy is enclosed along with Frequently Asked Questions ("FAQs"), which should address any questions you have about the IMAP Policy. The QR code below will take you to an online version of this IMAP Policy, which will provide you with the most up-to-date Policy MAP details. If you need further clarification, please contact the Danco IMAP Policy Administrator as directed in the IMAP Policy.

We have partnered with a brand protection company to monitor and enforce compliance with this IMAP Policy. We thank you for your partnership and support of our efforts.

Danco IMAP Policy QR Code:

Best Regards,

*Angela Richard*

## Danco, LLC

### Internet Minimum Advertised Price (IMAP) Policy

Effective May 1<sup>st</sup>, 2026

*Danco, LLC (Danco) and its brands, including Danco®, Zenith by Danco™, and SEVENTY™, market and sell innovative plumbing and home improvement products. By investing significant resources in product design, development, technology, and personnel, Danco has established a strong reputation for providing high-quality, innovative, and value-added products with a premium image.*

*To help protect its exceptional image and ensure the long-term viability of its brands, Danco believes its products should be advertised on the Internet at prices that accurately reflect their value. To support this goal, Danco has implemented the following Internet Minimum Advertised Price (“IMAP”) Policy, which applies to every authorized retailer (“Retailer”) located in the United States.*

1. **Applicability.** This IMAP Policy applies to any and all Internet advertising or promoting on websites, social media sites, banner advertisements, product advertisements, broadcast emails, texting, landing pages, and sponsored links of MAP Products by Retailers. Retailer may, however, sell MAP Products at any price(s) it chooses. This IMAP Policy applies only to the Internet-advertised price of MAP Products and does not apply to the price at which the MAP Products are actually sold to a consumer.
2. **Responsibility.** Each Retailer is solely responsible for its compliance with this IMAP Policy. Each Retailer is responsible for conveying the IMAP Policy to any third-party reseller to which it sells and for ensuring that any third-party reseller complies with the IMAP Policy. Failure of the Retailer to enforce the IMAP Policy among third parties to which it sells will constitute a violation of the IMAP Policy by the Retailer.
3. **MAP Products.** Danco has identified certain products (“MAP Products”) that may not be advertised on the Internet at less than the minimum advertised price (“MAP Price”) as provided by Danco. The MAP Products covered by this IMAP Policy and the corresponding MAP Price are identified in the attached Schedule A. Retailers may advertise MAP Products at or above the listed MAP Price.
4. **MAP Price.** The “MAP Price” is a Retailer’s advertised price: (a) before all taxes, shipping, delivery, and insurance charges paid by the Retailer’s customer; and (b) after applying all discounts, coupons, rebates, and similar price reductions; and (c) after giving effect to the value of free or reduced-price bundles. Free or reduced-price shipping may be offered by a Retailer when offered in connection with a purchase of a MAP Product, as long as such an offer applies to all or almost all other products in that same category.

5. **Internet Pricing.** This IMAP Policy applies until the final online “checkout” stage, defined as the stage when either: (a) the MAP Product is put into a shopping cart that contains the customer’s name, shipping address, email address, and payment information, or (b) login information that includes such customer information. In either case, pricing in the final “checkout” stage must be obscured technically so that it is not retrievable by shopping and pricing engines, and not displayed on search page results within the Retailer’s own website, even if logged in. Retailer may communicate the actual sale price to the consumer in a manner it sees fit, except for the following activities by or on behalf of a Retailer, which will be considered to be non-compliant with this IMAP Policy:
- Failing to exclude MAP Products from a coupon, discount, promotion, rebate, or site-wide sale (e.g., “% off”, “\$ off”, “gift with purchase” or “buy-one-get one”) when the offer has the effect of reducing the Internet-advertised price of the MAP Products below their MAP Prices.
  - Indicating that a lower price for a MAP Product may be found at the “checkout” stage.
  - Invitation to click or otherwise communicate to obtain a price of a MAP Product, except indicating the ability of customers to make specific inquiries by telephone or e-mail to obtain a price is permissible, as long as no automated call or “bounce-back” pricing e-mail is used.
6. **Non-Compliance.** Danco will take the following actions upon determining that a Retailer has advertised on the Internet any MAP Product(s) below the applicable MAP Price(s).

**First Violation.** Danco will notify the Retailer in writing that it has failed to comply with this IMAP Policy, and such Retailer shall correct the failure within seven (7) days.

**Second Violation.** In the event the first failure is not corrected, Danco will notify the Retailer in writing that it has failed to comply with this IMAP Policy, and such Retailer shall correct the failure within forty-eight (48) hrs.

**Third Violation.** In the event the second failure is not corrected, Danco will discontinue sales to the Retailer of each MAP Product involved in the second violation for a period of ninety (90) days, so that all pending orders will be cancelled and no new orders will be accepted for ninety (90) days.

Danco may utilize a third-party MAP monitoring agency to identify non-compliance.

7. **Communications.** Danco representatives are strictly prohibited from negotiating or modifying any aspect of this IMAP Policy with any Retailer, including that Retailer’s or any other Retailer’s compliance with the terms of the IMAP Policy. Further, only the person at Danco responsible for the IMAP Policy (the “Policy Administrator”) is authorized to discuss this IMAP Policy with Retailers.
8. **Modifications to Policy.** Danco has unilaterally adopted this Policy and is not an agreement or an offer to form an agreement. Danco is not requesting, and will not accept, any agreement regarding a Retailer’s compliance with this IMAP Policy. Danco, at any time, may vary the MAP Price(s) for any MAP Product(s), add to or delete any MAP Product(s) from this IMAP Policy, or suspend the application of this IMAP Policy for any MAP Product(s) for a stated period of time. In addition, this IMAP Policy may be modified, suspended, discontinued, or rescinded in whole or in part by notice from Danco at its sole discretion.

## **Danco Internet Minimum Advertised Price (IMAP) Policy Frequently Asked Questions (FAQs)**

### **1. What are examples of communications to which the IMAP Policy applies?**

This IMAP Policy applies to any and all Internet advertising or promoting on websites, social media sites, banner advertisements, product advertisements, broadcast emails, texting, landing pages, and sponsored links of MAP Products by Retailers.

### **2. Do dealers need to sign the IMAP Policy indicating that they agree with its provisions?**

No. The IMAP Policy is not an agreement between Danco and the Retailer. Danco has unilaterally adopted this Policy, and it is not an agreement or an offer to form an agreement. Danco is not requesting, and will not accept, any agreement regarding a Retailer's compliance with this IMAP Policy. The purpose of this document is to inform all of Danco's distribution network that there are certain consequences for deviating from the published IMAP Policy of the covered MAP product(s).

### **3. Does the IMAP Policy affect selling prices?**

No. Retailer may sell MAP Products at any price(s) it chooses. This IMAP Policy applies only to the Internet-advertised price of MAP Product(s) and does not apply to the price at which the MAP Products are actually sold to a consumer.

### **4. Does the IMAP Policy cover all Danco Products and Brands?**

Danco has identified certain products ("MAP Products") that may not be advertised on the Internet at less than the minimum advertised price ("MAP Price") as provided by Danco. The MAP Products covered by this IMAP Policy and the corresponding MAP Price are identified in the attached Schedule A. Retailers may advertise MAP Products at or above the listed MAP Price.

### **5. What happens if an unintended error results in a failure to comply with the Policy?**

The Policy will be applied regardless of whether the failure to comply was intentional or not.

### **6. What if a customer that I sell Danco products to violates the IMAP Policy?**

Each Retailer is responsible for conveying the IMAP Policy to any third-party reseller to which it sells and for ensuring that any third-party reseller complies with the IMAP Policy. Failure of the Retailer to enforce the IMAP Policy among third parties to which it sells will constitute a violation of the IMAP Policy by the Retailer.

**7. The Policy says that “indicating that a lower price” may be found at the “checkout” stage is a non-compliant activity. Please provide some examples.**

This IMAP Policy applies until the final online “checkout” stage, defined as the stage when either: (a) the MAP Product is put into a shopping cart that contains the customer’s name, shipping address, email address, and payment information, or (b) login information that includes such customer information. In either case, pricing in the final “checkout” stage must be obscured technically so that it is not retrievable by shopping and pricing engines, and not displayed on search page results within the Retailer’s own website, even if logged in. Retailer may communicate the actual sale price to the consumer in a manner it sees fit, except the following activities by or on behalf of a Retailer, which will be considered to be non-compliant with this IMAP Policy:

Failing to exclude MAP Products from a coupon, discount, promotion, rebate, or site-wide sale (e.g., “% off”, “\$ off”, “gift with purchase” or “buy-one-get one”) when the offer has the effect of reducing the Internet advertised price of the MAP Products below their MAP Price.

Indicating that a lower price for a MAP Product may be found at the “checkout” stage.

Invitation to click or otherwise communicate to obtain a price of a MAP Product, except indicating the ability of customers to make specific inquiries by telephone or e-mail to obtain a price is permissible, as long as no automated call or “bounce-back” pricing e-mail is used.

**8. What about advertising for my brick-and-mortar stores?**

The IMAP Policy applies only to Internet advertising.

**MAP Products.** Danco has identified certain products (“MAP Products”) that may not be advertised on the Internet at less than the minimum advertised price (“MAP Price”) as provided by Danco. The MAP Products covered by this IMAP Policy and the corresponding MAP Price are identified in the attached Schedule A. Retailers may advertise MAP Products at or above the listed MAP Price.

**MAP Price.** The “MAP Price” is a Retailer’s advertised price: (a) before all taxes, shipping, delivery, and insurance charges paid by the Retailer’s customer; and (b) after applying all discounts, coupons, rebates, and similar price reductions; and (c) after giving effect to the value of free or reduced-price bundles. Free or reduced-price shipping may be offered by a Retailer when offered in connection with a purchase of a MAP Product, as long as such offer applies to all or almost all other products in that same category.

**9. Can I submit my ads in advance to be approved for IMAP Policy compliance?**

No. Danco does not approve ads for policy compliance. Each retailer is solely responsible for an ad’s compliance with this policy.

**10. How long does our company have to correct a first violation for MAP Product(s)?**

First Violation. Danco will notify the Retailer in writing that it has failed to comply with this IMAP Policy, and such Retailer shall correct the failure within seven (7) days.

**11. Our first failure to comply was with a Danco MAP Product. Will we receive a notice of second failure to comply if we advertise a Zenith MAP Product below the MAP Price?**

No. In this case, you would receive a first failure to comply notice from Danco and, as a result, be at a first failure status since this was the first time this particular MAP Product was advertised below the MAP Price. The IMAP non-compliance actions are enforced for each MAP product covered by this IMAP Policy, identified in Schedule A.

**12. How long does our company have to correct a second violation for MAP Product(s)?**

In the event the first failure is not corrected, Danco will notify the Retailer in writing that it has failed to comply with this IMAP Policy, and such Retailer shall correct the failure within forty-eight (48) hrs.

**13. If there is a third failure to comply, what will happen to my unshipped orders of the MAP Product(s) at issue?**

In the event the second failure is not corrected, Danco will discontinue sale to the Retailer of each MAP Product(s) involved in the second violation for a period of ninety (90) days, so that all pending orders will be cancelled and no new orders will be accepted for ninety (90) days.

**14. How will updates to the IMAP Policy or MAP Products be communicated?**

Only the person at Danco responsible for the IMAP Policy (the “Policy Administrator”) will communicate IMAP Policy violations of the MAP Product(s). All violations will be communicated via email.

**15. How will I be notified of a failure to comply with the Policy?**

Only the person at Danco responsible for the IMAP Policy (the “Policy Administrator”) will communicate IMAP Policy violations of the MAP Product(s). All violations will be communicated via email.

**16. May I appeal (Danco or the “Policy Administrator”) non-compliance action decision(s) regarding an IMAP Policy violation?**

No.

**17. Does this IMAP Policy apply to employee discounts?**

No. If you have an employee discount policy where your employees may purchase Danco products for their personal use and not for resale, they may continue to do so per your company policy.

**18. Who do I talk to if I have questions regarding the IMAP Policy?**

We believe the IMAP Policy is clear, and along with these questions and answers above, you should have sufficient information to understand the requirements of the Policy. That said, should something be unclear, questions should not be addressed to your sales representative or any other representative of Danco. Any and all questions and comments about the above IMAP Policy may be submitted via email to the Policy Administrator as set forth below. Danco will accept no other form of communication from Retailers about the IMAP Policy.
