LEATHER WORK GLOVES

Same glove. Rugged build. The Durahide™ Leather Original® protects calloused hands with Durahide™ performance leather and extreme abrasion resistance when operating power tools or hauling rough building materials. The lightweight TPR hook-and-loop closure creates a form-fitting, secure fit, while the Freedom-Flex stitched cuff design reduces bunching and encourages a free range of motion. A single-panel snag-reducing mesh wraps the back of the hand, and CoolPlus® woven-mesh reduces heat buildup to keep you cool on the job. The Welded Lock Ring™ grip thumb panel wraps the high-wear saddle area for added durability without vulnerable stitching, and welded synthetic leather finger coverings deliver abrasion resistance and improved comfort. Vented palm heel padding absorbs light strikes and vibrations while keeping airflow moving. Toss them in the wash when the day's done — because The Original® earns that title every time you pick up a tool.

FEATURES

- 1 Durahide™ performance leather protects your palm with extreme abrasion resistance.
- 2 New snag reducing mesh wraps the back of the hand with a single panel reducing additional seams.
- 3 CoolPlus® woven-mesh back of hand reduces heat buildup while working.
- 4 Freedom-Flex stitched cuff design reduces material bunching on the back of the hand in encouraging free range of motion.
- 5 Welded Lock Ring™ grip thumb panel design wraps high wear thumb saddle area increasing durability and reducing vulnerable stitching.
- 6 Vented palm heel padding protects from light strikes and vibrations while increasing breathability.
- 7 Welded synthetic leather finger coverings provide abrasion resistance and improved comfort.
- 8 Light-weight thermoplastic resin (TPR) hook and loop closure creates a form-fitting and secure fit.
