

CRC® Marine Heavy Duty Silicone

Product Description

Engineered for extreme conditions. CRC Marine Heavy Duty Silicone delivers powerful performance where it matters most. This clean formula is water-resistant and fights corrosion to protect your gear and equipment. It lubricates a wide range of materials—including wood, nylon, rubber, and metals—reducing squeaks and preventing binding. With a temperature range from -40°F to 400°F, it's built to perform in the harshest marine environments, keeping everything running smoothly and silently.
