

SA101-SUB SMALL APERTURE® SERIES

10" IN-WALL SUBWOOFER - 3" OR 4" OPENING

(1) 10" (254 mm) Slim Subwoofer

The SA101-SUB, a shallow depth, in-wall, Small Aperture® subwoofer features a 5.4" deep sealed aluminum enclosure with a double-gang opening bass port. James all new proprietary woofer design promises high power handling and low distortion to deliver audiophile-quality where it counts.

With a high output 10" (254mm) honeycomb aluminum woofer and a band pass cabinet design, the SA101-SUB has an impressive 87dB sensitivity with bass down to below 33Hz.

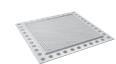

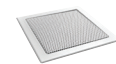

The sealed cabinet design features all aircraft grade aluminum construction for strength, sonic performance, and suitability for outdoor/marine applications. A grille provides a subdued visual effect, designed to be as unobtrusive as possible. Order grille kits separately.

The optional James M1000 DSP amplifier can power one or two SA101-SUB subwoofers.
