

RWG588

CUT PROTECTION LEVEL A8
PU COATED GLOVE

The RWG588 is an 18-gauge glove with a cut level of A8. Its composition includes a blend of materials such as HPPE and nickel gold wire to create a strong outer shell. This shell is coated with a polyurethane dip on the palm side, which provides excellent dexterity and abrasion resistance. Key features of this glove include its ability to provide excellent abrasion resistance, a comfortable fit for prolonged use, cut resistance to protect against sharp objects, and the added benefit of touchscreen compatibility.

EN388:2016

Meets ANSI/ISEA 105:2016
