

CRC® Dry Moly Lube

Product Description

Best for extreme pressure and high-temperature applications. You never want that call, because it's never for something simple. When equipment seizes under pressure or runs hotter than it should, CRC® Dry Moly Lube delivers the protection you need. It applies a durable molybdenum disulfide (MoS₂) film that withstands 50,000 psi and continuous temperatures up to 600°F (800°F intermittent). Resistant to extreme heat, high-pressure water and chemicals, it's built for work that must outlast your shift.

Advantages vs multi-purpose lubricants:

This is a solid-dry-film lubricant that handles extreme load, pressure, and high temperatures where oils burn off. It doesn't attract dust or dirt, and resists water and solvent wash out.

Applications

Gaskets, transfer belts, conveyor belts, motors, plant machinery and handling equipment, rubber moldings, high temperature, low load, or high rpm slides, rollers, wheels, gears, chains & hoists.

Identification

Item Number / Case Number	1003351 / 1003350
Legacy Number	03084
Unit Package Description	16 Ounce Aerosol
Net Fill	11 wt oz
UPC Code	078254030845
Unit Dimensions	7.75H x 2.63W x 2.63D in
Units Per Case	12

Properties

Appearance	Dark Gray Viscous Liquid
Base Type	
Boiling Point (F/C)	95°F / 35°C
Dielectric Strength	
DOT Proper Shipping Name	Aerosols, Flammable, Limited Quantity
Evaporation Rate	Fast
Flash Point (F/C)	-4°F / -20°C
Flammability LEL % / UEL %	1.7 / 12
Flammability Class - CPSC	Extremely Flammable
NSF Category Code	N/A
Odor	Solvent
Plastic Safe	No
Propellant	Hydrocarbon
Restricted From Sale In:	
Solubility	No data available
Spec Gravity Concentrate	0.81
Vapor Density	Not available
VOC % (Consumer Product def)	46.9
VOC Category	Dry Film Lubricant
Working Temp (F/C)	600°F (Continuous) / 750°F (Intermittent) / 315°C (Continuous) / 398°C (Intermittent)

Sizes

11 wt oz	03084
----------	-------
