

DynaGo Zoom - Aluminum Rollator with 3 Wheels

The DME Care Solutions DynaGo Zoom Rollator is a lightweight, 3-wheel rollator designed for safe, stable mobility with a small footprint for navigating narrow spaces in clinical and home care environments.

- Compact 3-wheel design allows for easy maneuverability in narrow spaces
- Lightweight, yet durable aluminum frame provides reliable support
- Ergonomic handles adjust arm height from 32.5" to 36.5" for customized comfort
- 8" non-marking wheels provide smooth indoor and outdoor maneuverability
- Premium braking system enhances safety and control
- Removable, water-resistant pouch offers convenient storage
- Easily folds for transport and space-saving storage
