

A photograph of a healthcare professional, a young man in a white polo shirt and khaki pants, assisting an elderly woman with a stand-up cane. The woman, wearing a white top, grey cardigan, and beige pants, is leaning forward with one hand on her knee and the other holding the cane. The professional is crouching down, holding her other knee. They are outdoors on a paved walkway with a stone wall and trees in the background. The dme care SOLUTIONS logo is overlaid at the top of the image.

## Stand Up Canes

DME Care Solutions Stand Up Canes are lightweight, adjustable walking aids designed for optimal user convenience. Each cane features a three-point rubber base that allows it to stand upright independently, along with a tri-fold design for easy storage, comfortable hand grip, and convenient wrist strap.

- Lightweight aluminum frame provides durable support
- Three-point rubber base allows cane to stand independently
- Step-up feature allows cane to be lifted without reaching or bending
- Tri-fold design folds in three places for easy storage and transport
- Comfortable rubber hand grip and wrist strap improve ease-of-use
- Tool-free push-button height adjustment: 31.9" - 35.9"
- Comes in retail-friendly packaging

Item	Description	Weight Cap.	Qty.	HCPC
