

DYNACARE

disposable underpads

ABSORBENT FLUFF FILL

Dynarex Underpads are high-quality liners designed to provide effective protection against fluids and leakage. These disposable underpads feature a 2-ply fill for added absorbency and non-skid backing for added fluid protection.

- Waterproof pads designed to provide effective fluid protection and incontinence care
- 2-ply tissue fill offers enhanced absorption of liquids
- Non-skid backing sealed on all four sides to minimize the risk of leakage
- Disposable, single use for added convenience and optimal hygiene
- 1347-1348: Underpads with polymer for added protection
- Not made with natural rubber latex
