

FOOD AND BEVERAGE

Food and beverage manufacturing has the highest injury rate of all industries. Proper action must be taken to bring these numbers down, such as investing in better safety programs and PPE. Check out our top PPE options for keeping food workers safe.

60%

HIGHER RATE OF INJURIES

Food manufacturing workers suffer a 60% higher rate of injury than other industries.

500%

ROI

OSHA estimates that food and beverage companies save \$5 for every \$1 invested in safety programs.

82K

WORKPLACE INJURIES

The Bureau of Labor reported that the food and beverage industry reported over 82,000 injuries in 2020.

SPEEDKNIT™ S1DC05

15-gauge knit nylon construction meets EN 388 and ANSI Level 4 abrasion standards

Water-based urethane palm coating provides enhanced grip performance in both dry or wet working conditions

S1DC-05

SPEEDKNIT™ S2EP33

18-gauge HPPE blended shell meets an ANSI A3 cut resistance standard.

Increased durability with reinforced thumb saddle.

S2EP-33

SPEEDKNIT™ S2EC06

Cut resistant shell made with a blend of HPPE and Tungsten meets ANSI Level 4 Abrasion & ANSI A4 cut resistance standards.

Water-based urethane coating helps maintain grip in both dry or wet conditions.

S2EC-06

SPEEDKNIT™ S2EC33

Cut performance meets EN 388, ANSI Level 4 abrasion standards & ANSI A5 cut-resistant standards.

Water-based urethane palm coating provides enhanced grip performance in both dry or wet working conditions.

S2EC-33

SPEEDKNIT™ S2EP02

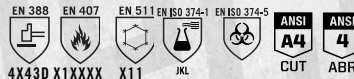

High dexterity 18-gauge HPPE + composite knit construction protects working hands against punctures and lacerations.

Rugged nitrile coating protects the user from harmful liquids and chemicals like sulphuric acid.

Dual coated sandy nitrile palm with textured grip offers high abrasion resistance and wet grip performance.

S2EP-02

SPEEDKNIT™ S4DP05

15-gauge nylon outer and 10 gauge brushed acrylic knit liner to keep your hands insulated from the elements

Sandy nitrile palm coating provides great grip for additional confidence when working outside in cold or wet conditions

S4DP-05

DISPOSABLE SUPER DUTY NITRILE

Raised Diamond Texture (RDT) grip instantly channels oil and other liquids to improve grip performance.

8 mil heavy-duty nitrile protects your hands from minor skin abrasions and shields against grease, oil and chemicals.

Rolled cuffs create a secure fit to your wrists and prevents tearing when pulling the gloves on.
