

# CONTRACTOR MARKET NEW PRODUCT BULLETIN Generator Adapters & Cord Sets

Maximize the use of generators with Coleman Cable's new generator adapters and cord sets, designed to accommodate most NEMA receptacles on generators sized to 11,000 watts.

Increase the number of useable 20 Amp connectors with Coleman Cable's "Y" generator adapter models. Convert standard generator NEMA L14-30; L14-20; L5-30 and L5-20 receptacles into two useable NEMA L5-20 or 5-20 connectors. Two models convert a NEMA L5-30P to two NEMA L5-20 or 5-20 GFCI protected connectors. The 50ft and 100ft 10/3 SJTOW extension cords include NEMA L5-20 or 5-20 ends and are rated at 20 Amps for maximum power and tool performance.

CCI's new generator cords are ready to withstand harsh job-site conditions. Vinyl STOW and SJTOW constructions, feature an oil and chemical resistant outer jacket. These tough, heavy-duty, outdoor rated extension cords provide excellent durability, super flexibility and abrasion resistance.

## FEATURES & BENEFITS

- "Y" adapter models increase the number of useable 20 Amp connectors
- Convert standard generator NEMA configurations to maximize job-site power and performance
- Two "Y" generator adapter models convert a NEMA L5-30P receptacle to GFCI protected 20 Amp connectors.
- Oil and chemical resistant vinyl jacket
- Durable, flexible and abrasion resistant cord
- Clear lighted female end with power indicator light
- New Hand-Pack boxes for immediate counter/store displays, with visible cord ends in the box
- Bi-lingual sleeve packaging enhances counter/shelf sales

## APPLICATION INFORMATION

### Construction and Maintenance

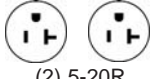

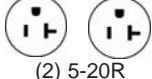

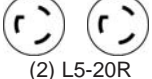

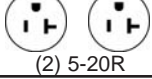

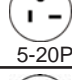

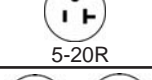

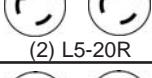

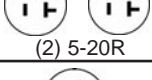

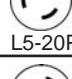

(for most generator receptacles)

- Commercial
- Industrial
- Residential

### Hand-Pack Packaging for Generator "Y" Adapters

### Specifications

- L14-30P converts to (2) L5-20R or (2) 5-20R connectors
- L14-20P converts to (2) L5-20R or (2) 5-20R connectors
- L5-30P converts to (2) L5-20P or (2) 5-20R connectors
- L5-30P also converts to (2) L5-20P or (2) 5-20R GFCI connectors
- L5-20P converts to (3) 5-15R connectors
- L5-20 50ft and 100ft extension cords rated at 20 Amps
- 5-20 50ft and 100ft extension cords rated at 20 Amps
