

COLDWEATHER THERMAL KNIT

INSULATED HAND PROTECTION

The brisk cold air can make even the simplest task more burdensome. The Thermal Dip glove comes in handy on cold days with its one-of-a-kind MicroFinish® palm coating that delivers superior grip and water resistance to your hands. The heavyweight knit shell and extended cuff offers breathable warmth when the temperature drops. From grabbing firewood to changing oil or anything in-between, our Thermal Knit glove provides a superior defense against whatever your hands encounter.

FIT

Extended knit cuff keeps glove secure for use under jacket sleeve.

SEAMLESS PALM

MicroFinish® coating provides a dry firm grip.
