

SONANCE

VISUAL EXPERIENCE THIN-LINE

VX62R TL | VX62R SST TL | VX66R TL | VX66 TL

Sonance Visual Experience Thin-Line Series represents expert innovation of performance and design, delivering room-filling sound from an elegantly slim profile. These architectural speakers combine advanced acoustic engineering that accommodates for challenging room architecture and space limitations; delivering Sonance VX into more applications, even in 2.5" metal framing for concrete construction.

KEY FEATURES

Sonance Visual Experience Thin-Line speakers accommodate for shallow construction and limited space. Available for in-ceiling or in-wall, and selections for performance level and Single Stereo Technology, VX Thin-Line models will complement the advanced performance of the standard Sonance VX Series models.

FEATURES AND BENEFITS

Shallow Depth Design: Fits into 2.5" metal framing in concrete ceiling applications

VX Transducer Tech: Higher performance, fidelity

VX Waveguides: Consistent tonality, improved coverage

VX Grilles: Micro trim and trimless, Sonance brilliant white

Decreased Depth: 3mm thinner than ever, fits into more installations (2.5" studs used in MDUs and high rises)

One-Stage Install: Traditional installation process, as seen in award-winning Visual Experience Series
