General Information

Artwork Requirements

We accept vector format, high-resolution (min. 300DPI), .EPS, .AI, and .PDF files. All fonts must be converted to outlines. Exact PMS color match is not available. All of our print equipment are 4-color CMYK printers.

Submit files with images already sized for printing. Failure to provide correct artwork may result in a proofing fee.

Design assistance with artwork is available for \$60 per hour with a half-hour minimum.

Production Time

Varies based on item. See product descriptions. Production time begins when the artwork is approved.

Rush Orders

A standard \$40 rush-order fee applies to most products. Domed products have a rush fee of \$65 and turnaround of 5-7 days. 24-hour turnaround time is offered for some products. Please call for pricing and availability.

Payment

We accept credit cards or net 30 day terms with approved credit.

Your Order Should Include

- In-hands date (if necessary)
- Item number and color
- Artwork
- Ship-to address
- Company name, address, and phone number
- Your name & e-mail address
- Credit Card Payment Form unless pre-approved

Shipping

UPS Ground Shipping is standard, but we use all major carriers and will ship orders as economically as possible. On ground shipping, delivery time is not guaranteed. They sometimes take a day longer than scheduled.

If you have a tight deadline, it may be wise to go with Next Day, Second Day, or Third Day Select Shipping. We need a physical address since UPS does not ship to P.O. Boxes. 3rd Party shipping accepted at no extra cost.

Drop Shipping

First location - no charge. Additional locations: \$10.00 each. We make every effort to meet your requested in-hands date. However, we cannot be held responsible if delivery is delayed by the freight carrier. All shipments are F.O.B. production facility.

Minimum Order Quantity is equal to the lowest quantity on each product pricing table.

Over/Under Runs

We ship exact quantities as specified in the approved purchase order. If we ship overruns, they are a gift to you at no extra charge

Sample Policy

We will provide up to \$5 worth of random samples at no charge when you provide your shipper number. We will charge for the more costly samples but offer a full credit for the cost of that sample against an order placed with us within 30 days from receipt. If multiple samples are ordered, we will only credit against the actual items that are ordered, not all samples.

Because our magnets have very strong magnetism, most samples are shipped via UPS Ground. Due to the volume of samples processed, we require a shipping number for all sample requests. Some product color requests for samples might not be available depending on inventory.

California Proposition 65 (Prop 65), also known as The Safe Drinking Water and Toxic Enforcement Act of 1986, is meant to provide a clear and reasonable warning at the time of purchase to the consumer when a product exposes the end-user to one or more chemicals above their declared safe harbor levels on the Prop 65 list. We value product safety and therefore have had all products tested for pertinent regulations, including Prop 65. Our products do not expose the consumer to any chemicals on the Prop 65 list and therefore do not require a warning label. It is important to our company to be transparent with our distributors and their clients, so we will continue to be diligent in following these evolving regulations and communicating with our customers regarding any updates or additional information. Per any material changes or new products, please know that we stand behind our product safety compliance and will ensure that our products undergo the proper testing and will contain warning labels if ever applicable.

Masks

P7-3PLYNOSE 3 Ply Wire-Nose Face Mask

- Product Size: Ear slots are about 3.5" on each side and will stretch up to 3/4" to allow for a perfect fit. 7" W x 5" H

Flexible Magnets

Full color direct imprint to magnetic material, which can be made in any size and shape you need.

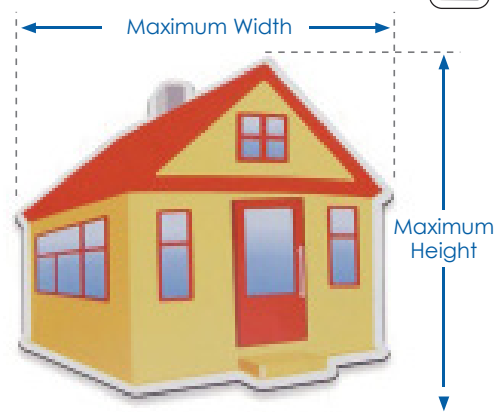

Note: Allow 1/8" border (white space) around the art for Non-Bleeds.
If bleeds are desired, art needs to measure actual size and a minimum of 1/8" bleed is required beyond the die cut edge.

How to measure square inches of special shape magnets:

$$\begin{aligned} &\text{Maximum Width} \times \text{Maximum Height} \\ &= \text{Total Square Inches} \\ &\text{(Round to the nearest inch)} \end{aligned}$$

Die-Cut Fee \$30 (V)
