

## PAPER TRAY COVERS

### ITEM 2259-2263

Dynarex Paper Tray Covers provide a protective barrier to help prevent cross-contamination while minimizing noise and improving the visibility of stainless-steel instruments.

- Designed to provide an effective hygienic barrier for medical instruments
- Textured surface muffles sound and improves the visibility of stainless-steel tools
- Durable construction helps to minimize cross-contamination and reduce the risk of infection
- Features smooth, rounded corners that help prevent fraying
- Available in a variety of attractive colors: White, Mauve, Lavender, Green, and Blue
- 8 ¼" x 12 ¼" sizing securely fits most standard dental trays
- Packaged in a convenient dispenser box for easy distribution
