Whether you're looking
for tiles for your home or
business, Baseline is the
perfect option for you.

BASLINE

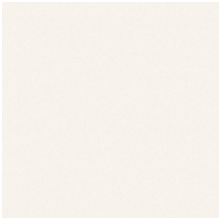

VITL | Baseline 2" x8"

BASELINE

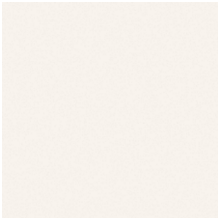

Story has always been important to us. It is what has driven us from the very beginning and it is what continues to inspire us today. Our story begins with porcelain tiles, surfaces that are both technically excellent and beautifully satisfying to the eye. Baseline is a testament to our commitment to creating products that are both functional and aesthetic.

Make your mark and tell your story with Baseline from VITL. This mosaic collection features an attractive mix of colors and sizes to offer design versatility. Give your space its own personality with various mosaic designs ranging from a classic penny round to a popular 1.5" hexagon. For a contemporary feel, black and white mosaic pattern combinations were carefully put together to align with today's current trends. Offering solutions to the most creative demands, Baseline Mosaics delivers quality, functionality and style to artists and designers everywhere.

CERAMIC CARE & MAINTENANCE

Glazed tile products should be cleaned routinely with an all-purpose, low-VOC, household or commercial cleaner. The product chosen should also be grout joint cleaning compatible. The type of product may vary depending on the tile application and use. A multipurpose spray cleaner, which removes soap scum, hard water deposits and mildew designed for everyday use can be used on wall tile areas in residential baths and showers. A cotton mop, cloth, sponge, or non-metallic brush should be used to apply and agitate cleaner. Rinse the area with clean water and dry thoroughly. Routine cleaners should never contain harsh chemicals as these can damage tile. Acids can damage grout and the glazed surface of the tile. Ammonia can discolor grout.

Regular dust mopping, sweeping, or vacuuming is recommended prior to cleaning with liquid products.

Unglazed tile should be cleaned routinely with concentrated tile cleaners with a neutral pH for safe regular use. These cleaners are better suited for removing grease, oils, and normal spills from unglazed products. Again, these products will vary depending on the application, amount of traffic and the use. The product chosen should also be compatible with the grout.

WHEN IT MUST BE GREAT.

WHEN IT MUST BE READY.

WHEN IT MUST BE EXTRAORDINARY.

WHEN IT MATTERS MOST.
