BY SONANCE

FLUSH MOUNTED SOLUTIONS FOR VX AND VXQ SPEAKERS

Flush mounted TRUFIG solutions for VX and VXQ In-Ceiling Speakers provide precision placement and flush alignment for refined spaces. TRUFIG mounting solutions are available for round or square VX and VXQ In-Ceiling Speakers. TRUFIG Solid Surface Router Templates allow precision placement and flush finish into wood or other solid surfaces that can be routed.

TO ACHIEVE A TRUFIG FLUSH FINISH

Select the router template for the size and shape VX or VXQ speaker (round or square).

+

Add any round 4", 6", or 8" Sonance or James VX or VXQ speaker.

+

Choose the appropriate trimless round or square grille for the size VX or VXQ speaker.

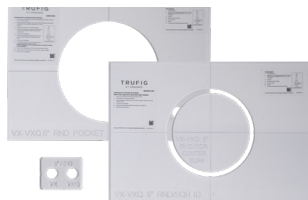

VX | VXQ ROUTER TEMPLATES

VX-VXQ-TRUFIG-RTR-TMP 4" RND
SKU 93666

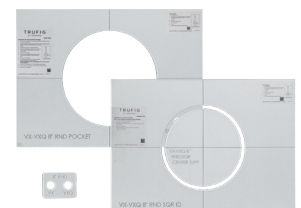

VX-VXQ-TRUFIG-RTR-TMP 4" SQR
SKU 93713

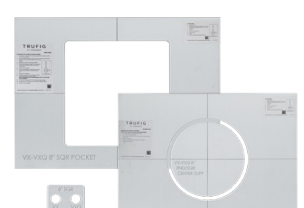

VX-VXQ-TRUFIG-RTR-TMP 6" RND
SKU 93673

VX-VXQ-TRUFIG-RTR-TMP 6" SQR

VX-VXQ-TRUFIG-RTR-TMP 8" RND
SKU 93680

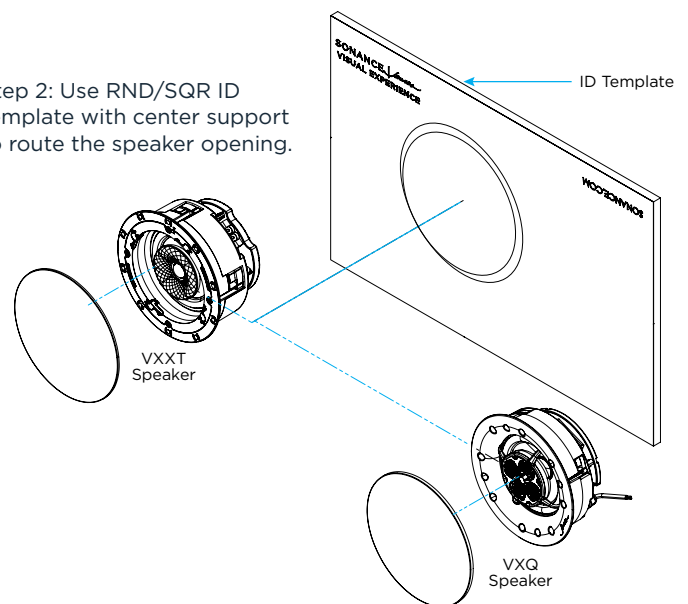

VX-VXQ-TRUFIG-RTR-TMP 8" SQR
SKU 93715

Step 1: Route the pocket for the grille shape at the specified depth, using the depth tool for precision power tool adjustment.

Step 2: Use RND/SQR ID template with center support to route the speaker opening.

*Requires compatible size and shape VX or VXQ speaker model plus appropriate trimless grille. See TRUFIG Gypsum documents for drywall installations.
